CLAIMS ALIMONY FROM HUSBAND; SAYS CRUELTY

FAMILY TROUBLES AIRED IN COURT BY LEDUC COUPLE

Dinah Says Her Man Threw Ax at Her Head Narrowly Missing Her.

WIFE'S CUPIDITY CAUSE OF ROW IS THE DEFENCE

Carl Martin Gilbert Tells Justice Better Half Did Not Like Will.

Domestic troubles were aired in the supreme court today in an action brought by Dina Gilbert against her husband, Carl Martin Gilbert, a Leduc farmer. Mrs. Gilbert claims alimony from her husband, alleging that she is unable to live with him on account of his cruelty. The parties were married at Leduc about six years ago. Gilbert having been previously married and his first wife deceased. After their marriage the parties went to Prince Rupert, and from there to Voncouver. Mrs. Gilbert went out to work for her living and her husband continued to live in Vancouver.

Husband Has Temper.

Later the husband bought fourteen five-acre lots on Bowen Island, and they lived together there on the farm. Mrs. Gilbert states that her husband has an ungovernable temper. On one occasion when she was bringing the cows home one missed its footing and became entangled in some bush. When she asked her husband to help her get the animal out he swore at her, calling her four names, and threw an ax at her, just missing her. She alleges that the cruelty was long continued, that Gilbert had struck her whilst she was driving the disc, on another occasion had thrown her out of a wagon in which they were driving because she said the horses were tired when he wanted them to go faster, and had also threatened her with a knife. She says she is afraid to live with him.

Blames Wife's Cupidity.

The husband denies the wife's story and says that all the trouble is owing to his wife's cupidity. He declares that they never had any differences until his wife caught sight of a will which he had drawn up. She was displeased with the will and shortly after seeing it she left the house and went to her father's. The next day she came with her brothers to claim some cattle which she said were hers. This will was made in March, 1913, and his wife left him in November. In this will he left $1,000 to his brother in Colorado, $500 to another brother in Idaho, and $500 to his sister in Wisconsin. He left the homestead and stock to his wife, and the residue of his estate to his son, who is under age and lives in Wisconsin.

W. M. Chartres, Leduc, is appearing for the wife and Mr. Watt of Watt and Watt, Wetaskiwin, for the defendant.

SORROW AND REGRET FOLLOWING DEATH OF SIR WILLIAM WHYTE

The feeling of sorrow and regret over the death of Sir William Whyte extends over the whole dominion from the Atlantic to the Pacific. Among those who will sincerely deplore his death will be H.R.H. the Duke of Connaught. During his stay in Winnipeg two years ago H.R.H. with Princess Patricia was much in the company of Sir William in public affairs, and on numerous occasions the governor-general expressed his regard for the Canadian railway leader. Other governors of Canada who have visited the west in recent years met Sir William and were the recipients of kindness at his hands, and his friends on the other side of the water are consequently numerous and influential and his death will be as greatly deplored as in Canada.

In the railway circles the unexpected death is naturally most deeply deplored. As an expert in the profession and as a man of wide knowledge and varied attainments, in all that pertains to railway construction and operation, he was recognized as a master. His associates fully agreed with the statement recently made in the house of commons that he was the greatest of the railwaymen of the dominion.

Carnegie Makes Donation.

St. John's, N. F., April 15.—Andrew Carnegie yesterday wired $1,000 contribution to the sealers fund.

REBELS ON THE FIRING LINE BEFORE TORREON.

A detachment of Villa's infantry-men, reinforced by a deadly machine-gun, photographed during an engagement with a federal outpost before the fall of Torreon.

WHAT NEXT AFTER THAT DEPENDS ON WHAT HE DECIDES

Wilson Has Prepared Congress for Further Action if Found Necessary.

STATEMENT ISSUED BY PRESIDENT ON AFFAIR

Long Series of Indignities Offered the United States Cause of Crisis.

Washington, D. C., April 15.—One new fact brought out at the White House conference was that two of the American bluejackets arrested at Tampico actually were taken from the Dolphin's boat.

Juarez, Mexico., April 15.—The defeat of the combined federal forces by the rebels at San Pedro De'Las Colonias, state of Coasuila, with federal losses estimated at 2,800 killed and wounded, 700 prisoners, and a rebel loss reported at 650 killed and wounded, it was pointed out here, was really the culmination of the battle of Torreon, which began on March 21.

Washington, April 15.—While the fighting ships of the Atlantic fleet today were heading for Tampico, senators and representatives were summoned to the White House to be informed of all phases of the Mexican situation in order that congress might be prepared for any further step.

President Wilson told the congressmen that he stood first for peace, but that if Huerta did not comply with the American demands, the first step to enforce them would be the seizure of Tampico and Vera Cruz, for which he considers there is ample precedent.

Acting Chairman Shively, of the senate foreign relations committee, Senator Lodge, the ranking republican of that committee, Chairman Flood, of the house foreign affairs committee, and Representative Cooper, the ranking republican of that committee, had an hour's conference with the president, at which Mr. Wilson outlined all the details of the now historic Tampico incident, in which a Huerta commander arrested American blue-jackets and refused to salute the Stars and Stripes as an apology.

An official statement setting forth the view of President Wilson, and the administration, disclosed that the Tampico incident alone was not the cause of the sending of the fleet and the preparations to back up the demand for an apology.

It disclosed the hitherto unpublished facts that official dispatches from Washington to Charge O'Shaughnessy have been intercepted and delivered to a Mexico censor, that a ship's orderly sent ashore for mail at Vera Cruz was arrested, although he was in full uniform, and carried the government's mail pouch on his back, and that the succession of affronts to the United States has convinced the Washington government that its representatives are being singled out for indignities.

It pointed out that with other nations having representatives in Mexico none of them had found it necessary to ask for apologies.

Wants Congress Prepared

Mr. Wilson impressed upon his callers that while he sincerely hoped no occasion would arrive for the use of force, a contingency might follow as the result of the American demand for a salute, and he wished members of congress to be prepared.

All four men who saw the president said no steps would be taken of a serious nature, such as the landing of marines or the shelling of Vera Cruz, without authorization from congress. is in session it would be more regular to get authorization from congress.

"The president gave us the history of the Tampico incident and explained just what had been done, but future developments depend entirely on the attitude Huerta takes. Congress, I am sure, will stand by the president."

Senator Shively likewise described the conference as chiefly informative.

"There have been no overnight developments," he said "and there really is nothing imminent as yet. We all hope that General Huerta will yield and remove a grave situation, but if he does not we are prepared to back up our demands. Before any marines are landed or any bombardment or other serious steps are taken, the president intends to consult congress. We obtained from him today a complete account of what has taken place

(Continued on Page Three.)

EDMONTON WILL HAVE EXHIBIT AT SAN DIEGO FAIR

Industrial Commissioner Hall States Cities of Province To Unite.

SPACE ON GROUNDS IS ALREADY SPOKEN FOR

Anticipates Good Advertising Results For Whole of Alberta.

It is practically assured that Edmonton will be represented at the San Diego exposition next year, according to George M. Hall, Edmonton's industrial commissioner. Plans are now under way for a grand provincial exhibit at the San Francisco world's fair, but the display at San Diego will be of a somewhat different nature, as all the cities of the province will unite to make one grand display, although each of them will have a separate and distinct show of their own.

The spaces on the grounds have already been spoken for and are being held. Some 10,000 square feet of space will be used and a building erected at a cost of $35,000.

The exhibit will take the form of an agricultural show and display, and will be the most elaborate and expensive ever shown by the cities of Alberta. It is expected to bring great results in the matter of advertising Edmonton and Central Alberta.

The work of arranging and planning the exhibit will be under way in a very short time, and a staff of several Alberta men will be in charge of the exhibit at San Diego.

ST. ALBERT PRAIRIE FIRE THREATENS TO DESTROY COLLEGE

A prairie fire is raging this afternoon near St. Albert, and from word which has been received in the city it seems probable that the Roman Catholic college there will be burned. There are a large number of residents fighting the flames but the grass is very dry and long at the place, and a stiff wind is fanning the blaze.

Japanese Under Arrest.

London, April 15.—Chinese government officials in Shang Hai, today arrested a number of revolutionaries who had come from Japan, according to an Exchange Telegraph companies dispatches. They were charged with spreading sedition among the regular soldiers.

At a meeting documents were seized, alleged to be signed by Dr. Sun Yat Sen, former provisional president. They are said to contain instructions for a widespread uprising and the massacre of officials this month.

Trainmen Give Ball.

The Brotherhod of Railroad Trainmen announce the date of their third annual ball and supper on Wednesday next, to be held at the Empire Auditorium.

WELFARE LEAGUE PLANS PREVENTION; NOT A CURE

HOG RAISING AND DAIRYING TAKING HOLD IN ALBERTA

Calgary, Alta., April 15.—Reports from their correspondents to the Calgary Herald in different parts of Alberta indiacte that farmers are gradually getting into the full swing of active operations of this year's crop. Seeding, however, will not be general for another two weeks.

The concensus of opinion seems to be that the soil is in much better condition and a deal of fall ploughing seems to have been done, while a good portion of the crop will be sown on summer fallowed land.

It is interesting to note this year that in some places north of Calgary there will not be any increase in the acreage under crop, because farmers are going in for dairying and hog raising is taking hold. Mixed farming being on the increase, not so much anxiety is being spent on the grain growing phase of agriculture

The labor situation taken all round seems to be satisfactory, though one or two towns report that there is work for more men.

Altogether the outlook at present is more promising than it has been for several years.

MINISTERS WILL ADDRESS LIBERAL RALLY TOMORROW

Hon. Charles Stewart, minister of public works, Hon. A. G. MacKay, and Jos. Adair will be the speakers at the big liberal rally to be held tomorrow night at the south side liberal club rooms, 56 Whyte avenue, commencing at 8.30.

Important organization business will be carried out and a good program of music will be rendered.

All south side liberals are requested to attend and if possible be ready to accept work on the committees.

Vincent Astor Very Ill.

New York, April 15.—Vincent Astor is seriously ill at the country place of Mr. and Mrs. Robert P. Huntington, whose daughter Helen Is to marry April 30.) He was stricken on Monday night and his temperature rose to 105. He was much better today, but Mr. Huntington said that physicians still regarded his condition as serious, although there was such a marked improvement in comparison to Monday night that they hoped the crisis had been passed. He added that it might be necessary to postpone the wedding, but they were hoping for the best.

After Peace River Trade.

Vancouver, April 15.—That the government of British Columbia assist in opening to Vancouver the trade of the Peace River country by the construction of a wagon road, thus making it easy for settlers to get into that country from British Columbia instead of from Alberta, was the intention of a resolution adopted by the board of trade last night. The matter will be at once taken up with the provincial government.

AIM TO DISCOVER ROOT OF EVIL AND THEN TEAR IT UP

Many Representative Men Showing Hearty Interest in Movement.

ORGANIZE VOLUNTARY RELIEF WORK OF CITY

Attempt Will Be Made to Prevent Overlapping by Registration Bureau.

The meeting of the Edmonton Welfare association held last evening in the industrial commissioner's rooms was of an enthusiastic nature. It is evident that many of the representative men of the city are showing a hearty interest in this social movement.

The program of work adopted is ambitious, setting forth the distinct policy of the association as one of prevention rather than of cure. While the sheep may need tending, the wolf will not be allowed to escape.

The causes of crime, of unemployment of squalor, misery, poverty, wretchedness and immorality must be discovered and removed. The forces at work in the city to better the social condition need uniting, and the matter of contributing to this work the deal for Edmonton is that of a city of good will.

Voluntary Relief Work

The work that the association proposes to carry on is divided into departments, that of social service, employment, loan and savings, a men's institute reserved bureau and public discussion.

The department of social service aims to organize the voluntary relief work of the city and to act as an investigation agent in the case of solicitations other than for charity. In the matter of relief organization it is not deemed desirable that the association undertake the distribution of relief but rather that it co-relate and federate as far as possible the existing charitable institutions. The plan by which this will be undertaken has a financial basis and the societies that obtain endorsement by the strong and representative committee of citizens will be assisted in raising their budget.

Generally the idea is to prevent overlapping of relief not only in the dispensing of relief, which will be achieved by means of a registration bureau, but also over-canvassing by the voluntary societies. In a word, it

(Continued on Page Three.)

ALL-NIGHT CHASE AND RUNNING PISTOL FIGHT WITH TWO BURGLARS

Fort William, Ont., April 15.—After an all night chase in which most of the local police engaged, Clarence Lee of Baltimore, Md., and Lee Sampson of Montreal, were arrested at 5 o'clock this morning at the termination of a running pistol fight in which Clarence Lee got bullet wounds in the fleshy parts of each leg.

The men have confessed to blowing two safes, in which their spoils were meagre, and burglarizing 16 stores in Port Arthur and Fort William during the past month.

The pair were seen at midnight breaking into the rear of a store and escaped via the fire escape. An hour later they broke into a butcher shop three blocks away, and again escaped. At 3 o'clock they raided a wholesale meat store, and cashed the plunder. The police found the hiding place, watched it and when the men returned to it the arrests were effected after numerous shots were exchanged.

GOES TO DEATH BY THREE-STORY DROP OUT HOTEL WINDOW

Prince Albert, Sask., April 15—Jense Ole Forgaard, of Carnwood, Sask., jumped or walked in his sleep out of a third story window in the Tourist hotel here at 2.30 this morning, striking the sidewalk, and being instantly killed. He was in the city giving evidence in a case in which he had brought a charge of stealing sleighs against a neighbor. He lost this case yesterday and last night was very down in the mouth about it. He declared he would get even with his neighbor.

Three men were sleeping in the room with Forgaard, these being Alfred Nelson, Gus Olsen and Arthur Ness. They say they heard nothing.

An inquest will be held.

CONCILIATION BOARD DECIDES IN FAVOR OF WESTERN EMPLOYEES

Ottawa, Ont., April 15.—The report of the board of conciliation which inquired into the trouble between the G.T.P. and its employees in the west has been received in the capital.

The details of the finding have not yet been given out, but it is announced that a majority report signed by the chairman and the representative of the men has found that employees of the G.T.P. shops in the west should work under the same schedule of pay as prevails in the shops of other western railways.

Accused of Horse Stealing.

Regina, April 15.—Edward Cagg, arrested at Winnipeg on a warrant five years old, charging him with horse stealing at Lipton, Sask., will be tried at Balcarres, Sask.

ALBERTA TO HAVE GOOD LIVE STOCK EXHIBIT AT FAIR

Hon. Duncan Marshall Says Department Prepared to Spend Large Sum.

OTTAWA GOVERNMENT BLOW AT HORSE INDUSTRY

Wanted to Distribute Stallions Here Purchased Outside of Province.

(Special to the Capital)

Calgary, April 15.—That the Alberta department of agriculture is prepared to go considerable expense to assist in the preparation of an exhibit of all breeds of live stock from this province at the Panama exposition at San Francisco in 1915 was the statement made here by the Hon. Duncan Marshall, minister of agriculture, in addressing the Alberta Horse Breeders' association.

The announcement roused great enthusiasm among the large gathering of representative stockmen present at the meeting.

"My department is prepared to spend a considerable sum of money to give the stockmen of Alberta an opportunity to make a most creditable display of livestock at the exhibition," said Mr. Marshall.

The meeting also took action regarding the proposed distributing of free stallions in the province by the dominion government. The directors of the association had made representation to Ottawa, pointing out the serious blow to the horse industry in Alberta which would result from the distribution of stallions purchased outside the province. As a result it is expected that any stallions required for distribution in Alberta will be purchased within the province.

DUKE OF CONNAUGHT MAKES EXPLANATION REGARDS BOY SCOUTS

Ottawa, April 15.—His royal highness the Duke of Connaught, at the luncheon given by the Ottawa district scout council, in replying to a toast to his health as chief scout for Canada, took occasion to refer to statements recently made by a Quebec paper, La Verite, although he did not directly mention this organ.

"The statement made that the boy scout movement is an anti-religious organization is the result of ignorance on the part of the writer," the duke stated. His majesty the king, who amongst his many titles possessed that of defender of the faith, was head of the boy scout movement, and therefore there was no cause for fear. H.R.H. regretted the incident very much, and declared that the sooner the parties responsible got the idea out of their heads the better.

ALL SIZES AND STYLES OF TYPE ARE PRODUCED TO PERFECTION IN OUR LINOTYPING DEPARTMENT

WILSON DETERMINES ON A FORWARD STEP AS TO CONDITIONS IN MEXICO

American President is Bound to Adjust the Intolerable Situation There—His Warlike Measures are Regretted Extremely by His Secretary of State, William Jennings Bryan—Chief Executive Resolved to Uphold the National Honor of the United States.

Washington, April 15.—The first step toward actual American intervention in Mexico has been taken.

Exasperated by President Huerta's blunt refusal to heed the demand to fire a salute to the American flag for the affront offered when an American officer and marines were arrested at Tampico last week and marched through the streets under arrest, the president of the United States has ordered practically the whole Atlantic fleet to Tampico, together with the transport Hancock with 800 marines on board. The torpedo flotilla at Pensacola including a score of destroyers has been ordered to stand by awaiting orders.

Satisfaction is to be had from Mexico. Huerta must fire that salute or take the consequences. There is, however, far greater significance in this movement of the navy—which means the mobilization in hostile waters of more guns, tonnage and men than the United States navy has ever had anywhere—than a mere step toward compelling the federal authorities at Tampico to fire a salute.

This movement marks President Wilson's determination to bring to an end his policy of "watchful waiting" and to take a forward step toward adjusting the intolerable Mexican situation.

Tampico Incident Is being utilized as the starting point for the development of a new American policy toward Mexico, which will include an abandonment of "watchful waiting" and the adoption of a program of action instead of idle onlooking.

There is evidence that the step has been taken largely on the president's initiative and his secretary of state witnesses the warlike measures which have been ordered with extreme regret.

Because of the intensity of the Mexican situation, it is probable the president will not leave Washington for White Sulphur Springs to spend the week-end with Mrs. Wilson as he had planned. Secretary Bryan has abandoned his trip to Miami, Florida, and will remain in Washington.

Those close to the president do not hesitate to say that his ire is aroused, and that he intends to go through with his program, whatever it is. To this end it is asserted, he will undoubtedly stay here and keep in close touch with all developments. It is known that he purposes to stake his political fortunes on his determination to uphold the national honor of the United States and does not intend to intrust material matters to members of his cabinet.

While no announcement to that effect has been made in official quarters, the president wishes to be in Washington when the crisis develops at Tampico in order that he may personally direct the activities of Rear Admiral Badger.

Silence was maintained at the White House, the inclination of the president being not to anticipate developments, although it is intimated that the administration's plans are rather fully outlined.

Fort Bliss, Texas, April 15.—Coming at the end of three years of watchful waiting on the sand dunes and cactus clumps of the Mexican border, the Tampico incident renewed hope among the units of the United States army here on the border, and nothing was being discussed at the offices and men's messes tonight but the possibilities of a Mexican invasion at last.

The army on the Mexican border has been ready for marching orders for many months, and only the final details must be completed before a fighting unit of 3,500 artillery and signal corps could be thrown across the Rio Grande as the advance guard of the army of invasion.

One hour is the estimated time it would require to throw the entire federal force into Juarez, the point of contact for the army of invasion.

It is recognized by army men that it will be necessary to take Juarez before any other military movements are undertaken along the border should military action become necessary. Juarez is filled with rebel soldiers who would begin firing into El Paso, a city of 50,000, as soon as the news of such a movement into Mexico became known.

There are three pieces of artillery in the town and serious trouble would be expected unless the town was taken immediately after the first shots were fired at Tampico, for the rebels have made many threats against the American town and its inhabitants in the event of intervention or armed occupation of Mexico.

Colonel C. A. P. Hatfield acting brigade commander, is in command here on the border and his forces include the 13th, 15th and 12th cavalry regiments, the 20th infantry, battery C sixth artillery and company 1 of the signal corps.

London, April 15.—The London newspapers record the despatch of the Atlantic fleet of the United States navy to Tampico without sensation, and the editorial comments are few.

The Daily Mail, however, expresses the opinion that the movement of the fleet is a sign that the relations between President Wilson and Huerta are approaching the inevitable climax. It briefly recapitulates the recent history of Mexico, and adds:

"The insurgents' crimes have abated President Wilson's sympathy. While it appears that the destruction of the Huerta regime might aggravate the Mexican difficulties, it is probable that when Huerta sees that Mr. Wilson is in earnest he will apologize."

"The Morning Post asks if President Wilson has lost faith in his "watchful waiting" policy, and replies that the announcement that the Atlantic fleet has been ordered to Tampico does not itself imply that the president has decided that the time for intervention has come, but it is not unlikely that this move will create a situation rendering intervention inevitable. Since the president and his advisers must foresee the possibility, it is reasonable to assume that they are prepared to take strong action. Huerta is well aware that Mr. Wilson is anxious to avoid active intervention and may attempt to bluff, but the United States having gone so far is not likely to recede until its claims are fully satisfied. But if the immediate crisis passes, the general problems will be no nearer solution. How the president can hope to secure the establishment of a Mexican government conforming to his standards without intervention it is difficult to see."

Washington, April 15.—News of the despatch of the fleet to Mexican waters was received in congress yesterday with general satisfaction. In the house, Representative Murdock, of Kansas, publicly proclaimed the news of Secretary Daniels' order, and there was a mild demonstration of approval. No public announcement was made in the senate, but the news quickly spread about the chamber and into committee rooms where senators were engaged in official business.

Today the situation will occupy the attention of the senate foreign relations committee. Members of the house foreign relations committee yesterday also manifested keen interest in the developments, and Representative Flood, chairman of the committee, conferred with his colleagues about preparation for an emergency that might arise.

Beyond asserting that the situation seemed to be a serious one, acting Chairman Shiveley of the senate foreign relations committee made no comment.

Many senators and representatives expressed themselves in sympathy with the action of the administration in ordering more ships to Tampico, but declined to be quoted in view of the uncertainty as to what might eventuate.

Vera Cruz, April 15.—The Mexican foreign minister, Senor Portillo Y. Rojas, has transmitted to the American charge d'affaires, Nelson O'Shaughnessy, a note dealing with the arrest of the assistant paymaster and a detachment of marines from the United States gunboat Dolphin at Tampico, and the demand of Admiral Mayo that the American flag be saluted. In effect the note says that the Mexican government cannot see wherein, under international law, the federals have inflicted any insult to the American nation, that its ordering the army publicly to salute the American flag under the circumstances would be an admission that the United States is exercising undue influence over this country's free action, and that the president is disposed to uphold the honor and sovereignty of Mexico at any cost.

Juarez, April 15.—A nine days' battle, possibly more desperate than those at Gomez Palacio and Torreon, has resulted in a victory to the rebels under General Francisco Villa, according to an official report made public here yesterday afternoon.

The combined rebel forces came upon the united federals, said in the last days of the battle to have numbered 15,000, at San Pedro De Las Colinas, state of Coahuila, forty miles east of Torreon. Killed and wounded on both sides, it is said, will number in the neighborhood of 3,000.

Mass, Hidalgo and De Moure were on their way to Torreon with reinforcements, but Velasco retired before their arrival. Since then until the concentration at San Pedro and environs, the federal columns, their routes determined by the presence of scattered supplies of water, have been manoeuvring in an endeavor to mobilize in force, while rebel detachments have scurried hither and thither between Resca Paras and San Pedro to prevent them connecting.

When the general engagement was brought on it is reported that the battle line measured twenty miles in a semi-circle about the city.

FIGHTING DISEASE AS FIREMEN FIGHT FIRE—THIS IS THE PROPER WAY TO BATHE A BABY.

New York, April 15.—New York has a new idea about fighting sickness and is doing what no other city has yet done—that is fighting disease the way firemen fight fire and getting it at the start. The health department has undertaken a great deal of "preventive work," especially with regard to tuberculosis, and already supplies a certain amount of nursing in the home. The investigating committee realizes that it takes sympathy, knowledge and good understanding to combat disease, and its idea of a "health center" is to concentrate these qualities among the tenements. There will be instruction in how to care for the baby—a child hygiene clinic—a dental clinic, a tuberculosis clinic, and a milk station like those the health department now maintains to furnish wholesome food for the infant. If the health center does what is hoped for it, it will be a sort of public neighbor, where the whole community can turn for help in sickness. A remodelled house will be the "health center's" abode, and it will be located in one of the congested districts. If it proves a success a "center" will be established in every "poor" district in the greater city.

PHYSICIAN DIES FROM GLANDERS TAKEN FROM PATIENT; PROVES HERO

Vienna, April 15.—Dr. Drobs, professor of bacteriology at Gracow university, died today as the result of being infected with glanders while treating a man suffering from that disease.

The professor was constantly with the patient, being greatly interested in the case. He had nearly succeeded in curing him when he observed symptoms which led to the discovery that he himself had caught the disease.

Foreseeing that he must die, he took leave of his family and students, and gave strict orders for handling his corpse in order to prevent the possibility of its becoming a medium in spreading the fearful malady. In accordance with his instructions two coffins were prepared for him, the inner one being lined with tarf. Finally Prof. Droba passed away in great pain which he bore heroically to the end.

CANNOT RECOGNIZE EDMONTON AT ALL

Pioneer Who Came to Country In 1886 Pays a Return Visit.

SEARCHED FOR GOLD HERE

Spending His Time Looking For Old Land Marks and Cronies—All Gone.

There is a man in Edmonton, the first half of this week who assisted in laying the steel for the first transcontinental train which crossed the continent, on the Canadian side in 1886. That person is Neil Burton, who appears as "Georgis" in "Sergeant Bagby" at the Empire theater the first half of this week as a feature of the Orpheum vaudeville bill.

"It was certainly a memorable occasion," said Mr. Burton. With two or three other fellows I had come west with the C. P. R. steel gangs and surveyors. Our real object in coming west was to find gold which we were told could be picked up without any trouble at all. We thought an easy way to get to the land of promise was by signing out with one of the steel gangs. We intended to prospect when we reached the Canadian Northwest. Actual work on railway construction was not in our minds. Signing up as railway laborers was only intended as a subterfuge.

Spirit of Pioneer

"Like all pioneers we discovered upon our arrival here that a pioneer becomes imbued with the spirit of the pioneer—that empire building is in his blood and he can no more avoid helping the good work along than fly. How well do I remember when we laid that first steel, what hard work it was and how we viewed our work with pride when the last link of steel was put in place. Then the real event. In 1886 Sir John and Lady Macdonald rode on the pilot of the first railway engine that made the first transcontinental trip. I remember as distinctly as though it were only yesterday that I sent the story of the feat performed by Sir James and Lady Macdonald to my home town paper in Bruce County, Ontario. How proud I was over my first journalistic effort. I thought it was a literary masterpiece at, that time, but as I see it now I know it was a very crude effort. I saved that clipping from my home town paper, and I afterward discovered that it was copied verbatim by over 50 United States and Canadian newspapers.

No Trading Posts

"Now look at the Canadian Northwest; Just look at it. I have been away so many years that I can't find any of the old cronies around these parts. I can't find the place somewhere around Edmonton where we formerly crossed the Saskatchewan river hand over hand on steel cables. I am lost in Edmonton because I can't see any Indians. They may be here, but I cant find them. It is all so strange, so wonderful that in over a score of years a city should spring up where once there was nothing but a dense wilderness. In Calgary I found the site of the old Royal hotel. I remember that from 18 years ago when I revisited what is now Calgary, but Edmonton—well, I can't believe it."

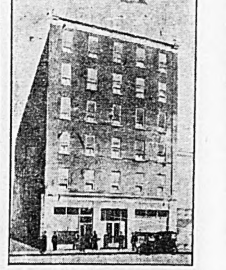

In over 25 years on the American stage, Mr. Burton has gone far in his art. He has played with stars well up on the theatrical scale, but he is never so much at home as when traveling through this west, especially in Canada. He says he is guilty of getting off the train at every little flag station when the train stops to see if he can recognize some familiar object of 29 years ago. Sometimes trains stop for only a moment, but Mr. Burton gets off the train anyway, but he is lost, lost in an impenetrable maze of cities that have sprung up over night, as he says.

BAD BLOOD

IS THE DIRECT CAUSE OF

Pimples.

Pimples break out on the face and body, and it is impossible to get rid of them, unless you cleanse the blood of all of its impurities.

Burdock Blood Bitters is without a doubt, the very best medicine for this purpose.

This old, and reliable medicine has been in use for nearly forty years, and has a reputation unequalled by any other preparation for removing all the impurities from the blood and banishing the pimples.

Mr. Edward Paquette, Navan Centre, Ont., writes:—"One month ago my face was covered with pimples and a rash. I had tried a number of these so called blood purifiers with no avail. Seeing an almanac of yours in which you strongly recommend Burdock Blood Bitters, I decided to try a bottle, and after I had taken it I could see a decided change, and after using three bottles more all the pimples had completely disappeared."

OFFER TO SUPPLY CITY WITH POWER MAY BE ACCEPTED

United Collieries of Canada Propose Erecting Modern Plant Near City.

RATE QUOTED NOT TO EXCEED $12 PER H.P.

Would Insert Clause in Contract to Sell Installation in Set Time.

The United Collieries of Canada had a proposition before the city council last night to supply power to the city. The offer met with general approval among the aldermen. Alderman Clarke thought it advisable to have enquiries made by the commissioner of operation for investigation and report as to the merits and qualifications of the company. The suggestion of Alderman Clarke's was adopted upon the casting vote of the mayor, who stated that if the offer of the United Collieries was made in good faith it should receive careful consideration and not be filed. The company's communication is written from Winnipeg, but according to the city clerk it came in an envelope of the Cardiff Collieries, Limited.

The offer of the company is as follows:

"(1) The undersigned and associates control large tracks of lignite coal fields within feasible distance, for electric form transmission, of the city of Edmonton, and are also now operating lignite mines in this district. As you are no doubt aware, Alberta lignite shacks and deteriorates if exposed to the atmosphere. The Alberta lignite cannot be coked, and unless utilized at the mine the slack is to a certain extent waste. As lignite coal cannot be economically stored—due to its unstable qualities—most mines which may operate to capacity during the winter months are practically idle during the summer. A number of men, however, are necessary to look after the idle mines.

Finer Coal Utilized.

"(2) Because of the conditions as above outlined, a steam-electric power plant, if located at a lignite coal mine, would, by supplying a steady market winter and summer, for the mine output, improve mining conditions generally. Also part at least of the finer coal now wasted could be utilized with suitable grates, etc., and not only freight but part of the coal handling expense could be eliminated.

"(3) We therefore believe that electric power can be produced at a lignite coal mine, within certain transmission distances of Edmonton, at a lower cost than power, under similar conditions of load factor, amount, etc., can be produced at a power plant not situated at the mine. This opinion is, we may say, based on the investigations and reports of well-known engineers who have investigated the power possibilities of this district.

"(4) The writers and their associates, therefore, beg to submit for the consideration a proposal as follows:

"(a) We propose to construct a modern power plant at a lignite coal mine and transmit the electric power by transmission lines to Edmonton, and sell this power in bulk to the city at such location in or near the city as may be convenient for the city. The city will distribute this electricity to customers over its own distribution system as at present.

"(b) We also suggest that the city at this time enter into contract with us for only such power as may be necessary to supplement the present city power plant and take care of the increasing load, this being similar to the agreement between the city of Calgary and the Calgary Power & Transmission company.

May Buy Plant.

"(c) We are also willing to embody in the proposed agreement a clause whereby the city of Edmonton may at the end of a stated period buy and take over the operation of the proposed power plant. The means of arriving at the valuation of the power plant to be mutually agreed upon and embodied in the proposed contract.

"(d) We also are willing to embody in the proposed agreement a contract price at which we will sell the coal, should the city decide to take over and operate the proposed power plant.

"(e) As the price at which we can manufacture and sell power depends largely on the size of our plant, the kilowatt hours generated, the "load factor" and other conditions under which the city may wish to take power, we cannot at this time quote a rate to meet all possible conditions which the city may wish to impose. We may say, however, as a basis of negotiation, that we would be willing to enter into an agreement with the city to supply all the power necessary for the city power, lighting, etc., at present, at a rate not to exceed $12.00 per horse power per year of maximum demand, plus a charge of six-tenths of a cent per kilowatt hour used. This rate amounts to less than three-quarters of a cent per kilowatt hour on a 50 per cent. load factor, and we believe that if cheaper power were available the city could induce enough industries to locate here and use day and 'off peak' power to raise the load factor to about 50 per cent.

Maximum Demand Rate.

"We quote a 'maximum demand rate' because such a rate will give a reduced net to the city as the load factor is improved and industries located here. We are quite willing, however, to quote a rate per kilowatt hour if the city prefers.

"We propose to enter into an agreement to sell the city of Edmonton electric power at a price which we believe to be lower than the cost at which the city can manufacture similar energy. We are willing to supply such electric power as will be needed by the city to supplement the present city power plant; the city to have the option of taking such further power as they may in future need, or to purchase and operate the proposed plant should the city consider this to be in the best interests of the consumers. We also are willing to enter into agreement to supply the city with coal should the proposed plant be taken over.

"We hope our proposal will deserve your consideration, and we hold ourselves ready to go into details of a proposed contract with the city at such time as suits your convenience.

"We are fully prepared to furnish such guarantees of financial and other standing as seems necessary to you."

(For further Council News see Page 7)

Best liver and bowel regulator for mamma, daddy and children.

If you're headachy, constipated, bilious or stomach is disordered and you want to enjoy the nicest liver and bowel cleansing you ever experienced, take a tablespoonful of "California Syrup of Figs," tonight and in the morning all the constipation poison bile and clogged-up waste will gently move out of the system without griping and you will feel splendid.

Every member of the family should use this fruit laxative as occasion demands. It is just as effective for grandpa as it is for baby. It simply can not injure. Even cross, sick, feverish children just love its pleasant taste and mothers can rest easy after giving it, because it never fails to effect a good "inside cleansing."

For thirty years "California Syrup of Figs" has been recommended by physicians as the ideal stomach, liver and bowel cleanser. Millions of families who are well informed use nothing else, but recently there has come a flood of spurious fig syrups, so we warn the public to ask plainly at drug stores for a 50 cent bottle of "California Syrup of Figs," and see that it is prepared by "California Fig Syrup Company." We make no cheaper size. Hand back any "counterfeit" with contempt.

AIM TO DISCOVER ROOT OF EVIL AND THEN TEAR IT UP

(Continued.)

will be sought to protect the liberal giver, to cultivate the small given and to educate the non-giver.

Assist the Unemployed.

In the department of employment, which is already organized, work is being given to men who are without either employment or money. During the month of March alone 2,100 meals and 720 beds have been provided to 109 different men. Out of the number who worked in the yard only a small percentage were refused further assistance on account of being unworthy. So far the experiment has worked out successfully. At a reasonable estimate for last month there has been saved to the regular dispensers of relief in the city not less than $500 in cash and to the men themselves their self-respect. An appeal was made at the meeting to aid the association to sell the large stock of firewood which is now on hand. The sale of the same will ensure the operation of the yard on a self-supporting basis. The employment or work department also seeks to find jobs for those who apply. In the future, however, the department will seek to gather information concerning the likely places to obtain employment, thus acting as an intelligent bureau.

The necessity of providing some means whereby worthy people may be tided over a time of difficulty, and incidentally to save them from the clutches of the loan shark it is proposed to attempt the establishment of a loan agency. Small loans under proper security for a short period is the aim of this department. The principle also of a savings bank for the benefit of the laboring man comes in the list of the favored by the association. By means of this bank efforts will be made to overcome the too prevalent practice of "rolling" and squandering. It is thought that if the stranger can be helped over the first two weeks that he is in the city, the probability is that he will need no assistance later in the winter.

Men's Institute.

Along the line of the floating population which is a characteristic feature in the city, the advisability of gathering information regarding the organization and operation of a men's institute was favorably considered. Such an institute would seek to take care of the men who have no home or similar associations to fall back upon, and provide them with the necessary sleeping and eating, educational and recreation accommodation.

The research bureau aims at taking up lines of investigation into the different phases of the social life of the city, an investigation of crime, infant mortality, foreign communities, housing conditions.

In addition to these lines of work which will require the co-operation of those interested in social matters, it is planned to hold public meetings for the discussion of topics of vital importance to the public welfare. Education of the public in social matters through the press and platform will be assiduously pursued.

Hold Whist Drive.

A whist drive under the auspices of the Daughters and Maids of England Lodge Imperial, will be held in the Cameron hall, Namayo avenue, next Wednesday, commencing at 8.15 p.m.

John Blue in Lethbridge.

John Blue, provincial librarian, is in Lethbridge, where he has been requested to address the delegates to the Alberta Educational association's conference.

ALBERTA MAYORS DISCUSS LICENSE FEES QUESTION

Members of Convention Not Unanimous as to Action to Be Taken.

THINK PORTION SHOULD GO TO MUNICIPALITIES

Are Entertained to Luncheon in Empire Auditorium By McNamara.

The convention of mayors and delegates from the different municipalities throughout Alberta met this morning at 10 o'clock in the council chamber of the civic block to discuss the liquor license fees, increment tax, police fines, etc.

All told there are probably 30 or 40 delegates present but they are not all unanimous by any means when it comes to the municipalities getting the lion's share of the licenses and fees.

After practically every delegate had spoken for or against the scheme, Mayor Sinnott of Calgary moved a resolution which was passed as follows:

"Whereas under the recent acts the government has appropriated all the licenses from hotels, breweries, etc.,

Payable to Government.

"And whereas the greater portion of all fines collected are payable to the government,

"And whereas the school grants are lessened, making a greater burden upon the cities and towns,

"Therefore be it resolved that this convention believes that a portion of the license fees and fines should be paid to the municipalities, and further that a committee be appointed to draft a resolution along the lines of this resolution to present to the government, making a request for a portion of the fines and licenses in those departments where the cost of maintaining the department is a charge on the municipality."

Mayor McNamara was appointed to select the committee to draft this petition to council and chose the mayors of Calgary, Lethbridge, Medicine Hat, Fort Saskatchewan and Camrose to retire and bring in a report to the convention. Upon motion of Mayor Brown of Medicine Hat, Mayor McNamara was added to the committee.

The mayoral delegates to the conference called by Mayor McNamara, of Edmonton, this afternoon waited on the members of the provincial cabinet to discuss the question of the division of fines and liquor license fees as between the provincial treasury and the local municipalities.

The ministers present at the conference included Hon. C. R. Mitchell, provincial treasurer, Hon. Wilfrid Gariepy, minister of municipalities and Attorney-general Hon. C. W. Cross.

A number of prominent citizens with the mayors and cabinet ministers of the province were present at the luncheon given by Mayor McNamara in the Empire auditorium this afternoon. His worship after a few opening remarks of welcome to his guests called upon Mayor Sinnott of Calgary to speak.

Mayor Sinnott stated that although he thought that Edmonton was the best city in Alberta outside of Calgary and he would prefer to live in Edmonton to any other city in the province apart from Calgary. Up to the present there had only been a small portion of the province of Alberta developed and as to the natural resources the world knew as yet practically nothing and all estimates of the wealth were but imaginary. Mayor Sinnott thought that the convention that had been arranged by Mayor McNamara was for a very worthy purpose.

Hon. Wilfrid Gariepy dealth with the several municipalities and gave a general outline of the work carried on. The mayor of Lethbridge and Hon. Charles Stewart, acting-premier, also spoke.

After the luncheon the delegates returned to the council chamber to prepare the petition to be submitted to the legislature. The mayor will take a trip about the city and wait upon the acting premier at 3 o'clock this afternoon.

INSANE WOMAN CUTS THROAT WITH KITCHEN KNIFE; DEATH RESULTS

Committing suicide by cutting her throat with a kitchen knife, Mrs. Emma Bellingham, of Dayland, Alberta, was found dead by her son Albert Danielson on Monday night. The report was received by the mounted police this morning and from the investigation instituted by the police it would seem that the woman was temporarily insane.

The mounted police inspector when he sent Constable Wilson to the scene. He followed a trail of blood to a clump of bushes not far away from the house where he discovered the kitchen knife in a pool of blood. Judging from where she had suicided and where she was found, it is thought that she tried to crawl to the shack with her last breath. The coroner viewed the remains and considered that an inquest was not necessary.

Mayor Will Speak.

The Equal Franchise league will hold a meeting on Friday evening in the Rutherford school house, Bonnie Doon, south side. The meeting is being held under the auspices of the Mill Creek Ratepayers' association. Alderman Rice Sheppard and Mayor McNamara will be the speakers of the evening.

5,000 Yards Swiss Embroideries to $1.50 per Yd. Values for 23c

ON SALE FRIDAY
See Our Window Displays

This sale judging by the values offered will undoubtedly be Edmonton's greatest. There are five thousand yards of fine Swiss embroideries and flouncings to be disposed of. We cannot fill phone or C. O. D. orders.

FINE Swiss embroideries and flouncings consisting of broken lines of regular stock, also complete ranges of almost endless variety of embroideries, insertions, etc., suitable for all purposes for which they can be used. Many of these lines have never been on the counter and are therefore practically new. Every piece in the whole lot is in the very best of condition and quite desirable. In going through out stocks we find we have too many lines and in order to reduce them we have taken out all the odd and broken lines ranging in price from 25c to $1.50 and offer the entire lot at the one price. The low priced lines are the insertions and flouncings to match the embroideries. Sale starts sharp at 8:30 tomorrow morning. Per yard 23c

TEXT OF THE OFFICIAL STATEMENT ON MEXICO

Washington, April 15.—The following official statement was issued today as representing the views of President Wilson and the administration:

"In discussions in the official circles in Washington of the present Mexican situation, the following points have been very much dwelt upon:

"It had been pointed out that, in considering the present somewhat delicate condition in Mexico, the unpleasant incident at Tampico must not be thought of alone. For some time past the defacto government of Mexico has seemed to think mere apologies sufficient when the rights of American citizens or the dignity of the government of the United States were involved, and apparently has made no attempt at either reparation or the effective correction of the serious derelictions of its civil and military officers.

"Immediately after the incident at Tampico an orderly from one of the ships of the United States in the harbor of Vera Cruz, who had been sent ashore to the post office for mail, and who was in uniform, and carried the official mail bag on his arm, was arrested and put into jail by the local authorities. He was subsequently released and a nominal punishment inflicted upon the officer who had arrested him, but it was significant that an orderly from the fleet of the United States was picked out from the many persons constantly going ashore in various errands from the various ships in the harbor, representing several nations.

"Most serious of all, the officials in charge of the telegraph office at Mexico City presumed to withhold an official dispatch of the government of the United States to its embassy at Mexico City until it should have been sent to the censor and his permission received to deliver it, and gave the dispatch into the hands of the charge d'affairs of the United States only upon his personal and emphatic demand, he having in the meantime learned through other channels that a dispatch had been sent him which he had not received.

"It cannot but strike anyone who has watched the course of events in Mexico as significant that untoward incidents such as these have not occurred where representatives of other governments were concerned, but only in dealing with representatives of the United States, and that there has been no occasion for other governments to call attention to such matters or to ask for apologies."

VERA CRUZ AND TAMPICO TO BE TAKEN IF HUERTA DOES NOT SALUTE FLAG

(Continued.)

and his purposes so far as they have developed. Of course, future steps depend upon Mexico city."

In Accord with President

Senator Lodge, said he was in accord with what the president had done and expressed the view that the demand for the salute and the dispatch of the fleet was in accord with precedent. He said he supported the president's action and hoped that serious steps might not be necessary.

Senator Shively said congressional action would be based upon a message from President Wilson.

"Will there be a message from the president?" he was asked.

"It certainly will come to that if reparation does not come from the Huerta government for the contemptuous is has taken," said he.

Senator Shively was emphatic in declaring ridiculous any idea that the United States was "bluffing."

President Wilson, according to the congressmen who talked with him declared he had given a reasonable time to Huerta, and while the time was without any fixed limit, there would be no quibbling and prompt action would follow Huerta's failure to comply. The exact status of affairs today, Senator Shively characterized as unchanged, "except that the United States will insist with all the power of this nation upon reparation for the defiance of the Huerta government."

Would Seize Custom House.

Senator Shively added that there were many precedents for action in retallation which would not be considered as actual measures of war, and that it was possible to seize the custom houses of Mexico without a declaration or war. Before such an action was undertaken, however, congress probably would be consulted, he said.

"There is no first class power in the world from which the United States would have withstood what it has patiently withstood from poor ungoverned divided and enfeebled Mexico.

It is like the case of snapping at the patient Newfoundland dog who must ventually act and teach his tormentors a lesson," he said.

Some other senators expressed the opinion that Huerta had defied the United States in the hope of arousing supoet to his regime.

Villa's victory at San Pedro, was pointed to as another element to emphasise the imminent danger to the Huerta regime.

The foreign relations committee formally discussed the situation today but no action was taken, general approval being expressed over the new turn in the attitude of the United States.

Greytown Case Recalled.

President Wilson refers to the Greytown case as a precedent for the demand for reparation made by Rear Admiral Mayo.

In that demand for reparation for injury inflicted upon the property of an American corporation near Greytown, Nicaraugua, and an insult to American Minister Borland because he had insisted an American ship captain in resisting arrest.

Secretary Dobbin in June 1853, sent the U.S.S. Cyand to Greytown to obtain redress and an apology. These were refused by the local officials and Captain Hollins at the expiration of a time limit of 24 hours, bombabrded the town after taking away on a steamer such persons as desired to go. The bombardment was intermittent. An interval of several hours was allowed between fusilades for an apology. That was not offered and a landing party burned the town without loss of life and then withdrew.

President Pierce, in his annual message to congress in December 4th, 1854, defended that action.

FOR COMPLETE BLOCKADE

Washington, D.C., April 15.—A complete blockade of both coasts of Mexico will be the first action taken by the United States navy carrying out the order of the president to force Huerta to respect the American flag.

The vessels of the fleet will not congregate at any one point on the Atlantic coast, as announced, but will all get under way soon as possible and gather on the way to Tampico. It is estimated here that the entire fleet should reach Tampico next Thursday.

It was learned at the navy department today that all vessels on the Pacific coast of the United States will be sent to the west coast of Mexico without delay.

(For Other Mexican News See Page 2)

COLLEGE STUDENTS INDULGE IN MERRY MELEE ON GROUNDS

A clash between the students of the University of Alberta and those of the Alberta Theological College, situated on the University grounds, is reported to have taken place shortly after midnight last night. The fray was begun on the college campus and afterwards the venue was changed to the college building.

Hose pipes were employed by the "Theologs" to repulse the onslaught of the University men and a severe tussle waged around these pipes when the University men attempted to capture their enemies' guns." Blows were freely exchanged and in the melee the basement of the college was flooded.

To Resume Dances.

A Squadron, 19th Alberta Dragoons, will resume their Cinderella dances on Tuesday next. These dances will be held as usual in the Separate school hall.

INDUSTRIAL MEN TO DISCUSS NEW BYLAWS PROPOSED

Party of Financiers Who Were to Attend Have Been Delayed.

SPEECH BY MINISTER OF AGRICULTURE POSTPONED

Meeting Will Vote on Constitution Clause by Clause After Luncheon.

The management of the Edmonton Industrial association has found that the party of financiers who were expected to be in Edmonton this week will not reach the city until next week, and it is deemed unadvisable to hear the addresses of Hon. Duncan Marshall until next week, and to make their meeting a "Constitution Day."

The luncheon hour tomorrow will therefore be spent in reading and discussing the new constitution and bylaws, and making clear the various activities of the association. This is a very important matter and every member should be on hand at the Empire auditorium at 12 o'clock noon, sharp, on Thursday, April 16. The proceedings of the noon hour will be enlivened by good music.

The constitution as recommended by the executive committee, is very complete and specific, and covers every activity of the association. It will be voted upon clause by clause. It is the law under which every member of the Industrial association will work. Every member of the association is requested to be there and cast his vote.

Rebecca Lodge Meets.

The regular meeting of Jewel Rebekah lodge, No. 25, will be held in the Oddfellows' hall, Norwood Boulevard, on Thursday night at eight p.m. Degree team will meet at 7.30 for practice. Routine business and initiation.

WILSON'S SYMPATHY FOR THE CONSTITUTIONALISTS

United States gun boats under full steam toward Tampico and Huerta steadfastly refusing to make obeisence to Uncle Sam for the arrest of United States marines constitutes a new development in the Mexican situation which may not lose its acuteness as quickly as that developed by the assassination of the British subject, Benton.

The United States attitude toward Mexico has been, on the whole, rather mixed. Wilson, quite evidently, is sympathetic toward the constitutionalists, and it is difficult to see how a man of his mental slant could be otherwise. Huerta came into office through the assassination of his predecessor. For this reason Wilson refused to recognize him. He holds office by the might of the sword, and his government is not government by consent of the people governed, but a dictatorship which regards the subjects of the country as pawns or victims and the resources of the country as loot. Huerta is the legitimate successor of Diaz, who administered the country for the benefit of the very few, who frustrated all attempts at the spread of education or the extension of liberty and who sold his country out in huge blocks to exploiters who were not even countrymen. Constitutional government under Huerta is impossible, for the reason that Huerta himself does not believe in constitutional government. Whether Carranza and Villa would do any better is something that cannot be decided until they have had a chance, but quite evidently Villa has the sympathy of the class of people in Mexico who have most need of constitutional government. When Wilson took the embargo off arms he went a long, long way toward making success possible for Villa, and subsequent developments have shown that Villa is a soldier of some merit, no matter how barbarous some of his methods may appear from the press dispatches. Interference by United States with the Huerta government could have no more immediate effect than to wreck entirely Huerta's credit in Europe, which is what Wilson attempted to do when he originally attempted the financial embargo which was evidently intended to undermine the power of what government there is now in Mexico.

Wilson's procedure so far has been consistent with the Munroe doctrine, which presumes that the two Americas are a preserve from which European nations are debarred; but it has also been consistent with the belief that his sympathies have all along been with the constitutionalists.

As an outcome, it would not be at all surprising should he interfere to put Huerta out of business and assist in the erection of a government elected by the people of Mexico.

DO THE WOMEN WANT THE VOTE?

Do the women really want the vote?

Illinois, the other day, held the first election in which women were given an opportunity to vote, and the results appear to indicate that they do. Thousands of them voted; women from the Lake Shore Drive who came in limousines, and women from the tenements who came on foot. Women whose names have become household words throughout the continent, such as Ella Flagg Young, of the Schools, Jane Addams, of Hull House, Mary McDowell, stockyards settlement worker, and many others were prominent throughout the day getting out the vote in a cold and biting wind. In the First ward, the precinct of "Hinky Dink" and "Bath-House John" women complained of being molested by toughs on the way to the polls and extra police had to be called to protect them while they went to vote. At Sycamore, Ill., Miss Margaret Swinburn, aged 101 years, cast her first ballot. At Lockport, a woman aged 100 voted; at Freeport another aged 89 voted before 8 o'clock and at Aurora a Mrs. Van Sant, who is 80 years of age, voted after having come all the way from Los Angeles to cast her ballot.

The Illinois experience certainly disposes of one question. The women do want the vote.

ANGLO-SAXON AVERSION TO ENFORCED MILITARISM

That forced military service is not taken to kindly by the Anglo-Saxon is made plain by the experience of Australia, where the attempt is at the present time being made to carry out the Commonwealth Defence Act, recently passed for the purpose of compelling all men in Australia to undergo military training.

At the present time there are 122,000 men in training, but there have been 21,300 prosecutions against people who refused to comply with the act and no less than 3,400 are "in detention" in the various jails and barracks for refusal to go to the camps.

The Australian experience, that of 17 per cent. of the men preferring prosecution to compulsory training, is probably no different from what would follow in Canada if Sam Hughes were given opportunity to attempt to enforce his hobby of making every man a soldier, and no different to what would happen in Great Britain if Lord Roberts were given an opportunity to enforce the conscription scheme which he so dearly loves.

BORDEN GOVERNMENT'S "OUT" ON THE CANADIAN NORTHERN DEAL

"There is reason to believe," says the Ottawa Citizen, "that in the final adjustment of the matter the further expenditure will be supervised by the government rather than being handed over to MacKenzie and Mann."

This looks like the Borden Government's "out" on the C. N. R. demand for further assistance. The Ottawa Citizen's prognostications, which may be taken as semi-official, can very easily be read to mean that the government proposes to hand over the money necessary to complete the railway from Edmonton to the Coast, but will retain a hold on the expenditure of it, and may take some alleged security in the form of stock or bonds to guarantee the repayment.

The justification of this course will be up to the Western conservative members and those who would be members for western constituencies. The question is, what will Bennett do?

THE DISAPPEARING STREET CLEANER

The New York street cleaning department estimates that the average life of a man who goes to work at street cleaning is five years, and a recent examination has brought out the fact that of the five thousand so employed by the city one-third were infected with tuberculosis, although all had passed an examination at the time of entering the city's employ.

The street cleaner is one of the disappearing sights of the large cities, which everywhere are adopting the flushing method as both economical and necessary in the interests of public health.

The New York circumstance is interesting in Edmonton at the present time owing to the fact that the failure of the sweeping method to keep the streets clean has been brought graphically to public attention by the first woman who ever spoke before the Industrial association, Mrs. Murphy.

TODAY IN DOMINION HISTORY.

In the hall of fame of Canadian journalism, which includes such historic names as D'Arcy McGee, George Brown, Joseph Howe, William Lyon Mackenzie, John Robson, Egerton Ryerson, Modeste Lanctot, J. B. E. Dorion, Etienne Parent, Ronald Macdonald, John Cameron, J. Gordon and a host of others, not the least prominent niche is set aside for Charles Belford "the man from Cork," who was born in the Irish city 77 years ago today. He received an excellent education in his native land, and at the age of 20 came to Canada and settled in Toronto. The Leader was then the leading Conservative daily journal of Toronto, and Belford joined its staff and soon won a wide following by his able editorial treatment of contemporary affairs. When Lindsey retired from the editorial chair of the Leader, Belford succeeded him as editor-in-chief. In 1871 a company was organized to publish a new conservative paper, and Belford was induced to take charge of its editorial department. On March 30, 1872, the first number of the Mail was issued, with Belford as editor. Belford's journalistic talent soon placed the Mail among the forefront of Canadian papers, and the editor received many flattering offers to transfer his allegiance to the United States. One of the leading papers of New York offered him the position of editor-in-chief, and President Garfield, who was numbered among the Irish-Canadian editor's admirers, urged him to accept it, but Belford refused to leave the Dominion. In 1879 he was made secretary of the Canadian board of appraisers at Ottawa. He died in December, 1881.

FIRST THINGS

American Drama.

The first regular theater in America was opened in Philadelphia 160 years ago today with a performance by the English company brought to the colonies by Mr. and Mrs. Lewis Hallam. There was bitter opposition to the erection of a playhouse in the Quaker City, but permission was finally obtained on the condition that the actors offered "nothing indecent or immoral." The American stage was doubtless established by the Spaniards in Mexico, but the first theatrical performances of which anything definite is known were given by French amateurs in Quebec in 1694. The first English dramatic performance in the New World was given by Moody, an English actor of Irish characters, in the Island of Jamaica in 1745. Four years later Otway's "The Orphan," was presented in Boston, and caused a tremendous scandal, which resulted in the suppression of the theater in the Hub for nearly half a century. In 1749 an attempt was made to open a theater in Philadelphia, but the promoters were arrested and bound over "to keep the peace". In 1750 the Nassau street theater, a converted store-room, was opened in New York. In 1752 Hallam came over with a company which was seen in ex-temporized playhouses in New York, Williamsburg, Va., and Annapolis before the players went to Philadelphia to inaugurate a season of 20 nights in America's first real playhouse.

New York last year recorded 480 homicides and 9,163 robberies. Over 14,000 foundlings or lost children were picked up and cared for during the year.

Backache Banished.

Thousands of men and women are suffering from weak, lame and aching backs, and many of them unable to do any work for the pain.

The stitches, twitches and twinges are bad enough and give enough misery, but, back of the backache, and the cause of it all are the disordered kidneys crying out in warning through the back.

Backache is kidney ache, and there's serious trouble ahead for you if you neglect it.

Doan's Kidney Pills cure every form of backache by curing the sick kidneys that cause it.

Mrs. Jack Mason, Springhill, N.B., writes—"I have been suffering from backache for a very long time. I tried everything and did everything, but still I would suffer. One day I was looking over your Almanac, and saw your advertisement for Doan's Kidney Pills, so I got 5 boxes, and I am glad to say that they brought me back to life again, and from now on I will never be without them."

Doan's Kidney Pills are 50 cents per box, or 3 boxes for $1.25, at all dealers or mailed direct on receipt of price by The T. Milburn oC., Limited, Toronto, Ont.

In ordering direct specify "Doan's."

Curing Husbands of Drink

Are you worn out and discouraged trying to get them sober and keep them that way? Do they promise they will stop and then go out and get drunk again? Do they realize they do not deceive you and themselves because they are poisoned with alcohol and cannot resist the craving for drink. You wife and drinking men can have sober husbands and sons if you will send them to the Neal Institute. The Neal treatment is a safe, sure vegetable remedy that will remove the craving for drink in three days without the use of hypodermic injections, and restore your husband or son to sobriety or usefulness.

GAS, DYSPEPSIA AND INDIGESTION

"Pape's Diapepsin" settles sour, gassy stomachs in five minutes—Time it!

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs.

Pape's Diapepsin is noted for its speed in giving relief; its harmlessness; its certain unfailing action in regulating sick, sour, gassy stomachs. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach troubles has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any drug store and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eructations of acid and undigested food—remember as soon as Pape's Diapepsin comes in contact with the stomach all such distress vanishes. Its promptness, certainty and safe use in overcoming the worst stomach disorders in a revelation to those who try it.

TODAY WE CELEBRATE

Historians Celebrate Today Centenary of J. L. Motley.

Historical societies of America, England and Holland will celebrate today the centenary of John Lothrop Motley, who was born in Dorchester, Mass., April 15, 1814, and died in Dorchester, England, in 1877. Dutchmen will honor the memory of this American historian and diplomat because the great and monumental work of his life deals with the history of Holland and the long and ultimately successful struggle of its people to maintain national independence. The little country now ruled by Queen Wilhelmina owes a debt of gratitude to Motley, for he clothed the bare bones of its glorious history with flesh and blood, and helped to keep alive the old Dutch ideals of democracy and nationality. Motley's work is more than a mere record of events—it is history of the kind that itself makes history. It is a stirring appeal to the liberty-loving spirit of all mankind. On the little stage of Holland there was acted a drama centuries long that by Motley's genius has been made to serve as a lesson and an inspiration to all the nations of the earth. It is a thrilling story of a small country that triumphed over great and powerful enemies at home and sent forth daring mariners to roam the seven seas and found on the distant shores of the New World its future metropolis.

Motley, whose genius transmuted the dross of dull Dutch records into pure gold of literature, was educated at Harvard and the University of Gottingen, Germany. He adopted the legal profession and entered politics as a member of the Massachusetts house of representatives. Tiring of law and politics, he found his true vocation in the writing of history. From his student days he had been a student of Dutch history, and he decided to specialize in that comparatively neglected field. After a labor of ten years, in which he ransacked the libraries and archives of Europe and America, he published his immortal "History of the Rise of the Dutch Republic". This volume appeared in 1856, and its author was immediately established among the literary elect. He developed and elaborated his first work in his "History of the United Netherlands," and also wrote "The Life and Death of John Borneveld." Motley was of the school of Lord Macaulay, and the equal of that great historian in keen scrutiny of material, literary style and the vividness of his narration. In 1861 President Lincoln appointed Motley minister to Austria, and in 1869 President Grant made the historian his minister to Great Britain. It is a curious coincidence that Motley was born in Dorchester, Mass., and passed away in the old English city of the same name.

This is an important date in the history of the English language, for it was on April 15, 1755, that Samuel Johnson's dictionary was published. The first English dictionary, compiled three centuries ago, contained but 8,000 words, while Johnson's work included 50,000 words, and was considered a very monument of erudition. Yet Noah Webster's American dictionary, first published in 1828, defined 160,000 words, or over three times as many as Johnson's work. The very latest dictionary of the English tongue contains 450,000 words, nearly all of them undoubtedly English either by origin or adoption. It is estimated that the English language, which is spoken by more people than any other European tongue, is now growing at the rate of 5,000 words a year. The first of the world's dictionaries was—of course!—a Chinese compilation, and was perfected about 1100 B.C. by Pa-out-she.

COLLEGE IS PLANNED FOR INDIAN PRINCES

Delhi, India, April 15.—The sons of the ruling chiefs of India are to have a college when the building of the new capital is carried out. The estimated cost of the college is $2,000,000.

The plans originally confined those eligible to the college to the sons of ruling chiefs, but have now been extended to include selected youths of aristocratic families as well.

Lord Hardings, the viceroy, is greatly interested in the project and is devoting much of his time to it. He is of the opinion that the future of the Indian states now depends more upon the education of the people than upon British military control.

John Koch, dying of consumption in Springfield, Mo., is said to be a brother of the late Dr. Robert Koch, of Germany, who spent his life trying to find a cure for that disease.

TODAY'S BIRTHDAY PARTY

Bliss Carman, "Sweetest Lyrist of All America," is 53 Today.

Canada has produced many great poets, and not the least of them were the authors, often unknown and unhonored, of the chansons of the French-Canadian peasantry and the wild and rollicking boat-songs and drinking choruses of the St. Lawrence voyageurs. Of the later Canadian poets, whose work has been bound in books, the French school includes such notable names as Frechette, Cremazie, Chauveau, and Suite, while the English school has been represented by such inspired bards as Charles Sangster, Alexander McLachlan, "the Canadian Burns"; Charles Mair, "the Poet of the Northwest"; E. Pauline Johnson, the Indian poetess; Archibald Lampman, Charles G. D. Roberts, Arthur J. Lockhart, John Hunter-Duvar and Bliss Carman.

Mr. Carman, who was born in Fredericton, N.B., fifty-three years ago today, several years before the birth of the dominion, has been called "the sweetest lyrist of all America," and he has a host of admirers who consider him the foremost poet of the century. He was educated at the University of New Brunswick, the University of Edinburgh and Harvard, read law for two years, and also studied civil engineering. Neither the legal nor engineering professions appealed to him, however, and in 1890 he entered the journalistic field as office editor of the New York Independent. Later he edited the Chap Book of Boston and the Boston Literary World. It was at this period that he began writing verse, much of which was published in the newspapers and periodicals of New York and Boston, and in 1893 he published his first volume, "Low Tide on Grand Pre." His "Songs from Vagabondia," written in collaboration with Richard Hovey, established his reputation, and his many subsequent volumes have had wide and appreciative reading. Mr. Carman was christened William Bliss, the first being his father's name and the latter the maiden name of his mother, but for literary purposes he dropped his first name.

On his birthday a year ago several of Mr. Carman's Canadian admirers issued a little brochure of appreciation, and Mr. Newton MacTavish, editor of The Canadian, expressed the opinion of many of Mr. Carman's admirers when he wrote: "But perhaps one might assume the role of prophet and say that long after the material things that we now prate about have passed away, long after our products of the soil and our tonnage on the great lakes have been recorded faithfully in forgotten tomes, the wealth of this poet's imagery, the measure of his rhythm, the supreme cadences of his song will shine and beat and resound in the hearts and minds of the people."

That distinguished American expatriate, Henry James, author of many volumes of fiction and essays expressed an unhappy realization, obscured by an unhappy tendency toward esoteric phraseology, grand master of the literay circumlocution office, New Yorker by birth and English resident by choice, and the famous Swedenborgian disciple and philosophical writer, the Rev. Henry James, arrived in this world seventy-one years ago today. In his youth and young manhood he traveled over the various countries of Europe, returning to Harvard to study law, but soon abandoning his legal ambitions to devote himself to literature. Scores of novels, stories and critical essays have come from his pen, and he has exercised a profound influence on the younger school of English fiction writers, who look upon him as their master. Mr. James's opinion of the work of his literary disciples is not highly flattering, and in a recent article he "damned with faint praise" his most zealous followers.

AMERICANS GET PLAUDITS FOR TRADE ENERGY

London, April 15.—Two of the ragging London pastimes these days are reviling Americans and lauding the industrial habitants of the United States to the skies.

The appointment of an American to run one of the principal steam railroads entering London for the purpose of electrifying and generally improving the system has provoked a storm of comment. The British commercial traveler is beginning to discover all sorts of virtues in Uncle Sam. It is complained that the English commercial traveler abroad knows no language but English, while the German and American are well equipped in every detail.

H. E. Morgan, president of the Sphinx club, in a recent speech said the Englishmen's trouble was the lack of quality in his goods, but want of the art of presenting them in a tempting fashion, "which our American cousins know how to do to perfection." Meantime the American merchant, Gordon Selfridge, continues to add on to his department store, now the greatest retail establishment in this city.

Death Plays Part in Case.

A hurry-up call to the hospital to see a patient who was so sick that she died next day was no excuse for passing a street car that was stationary. Is the view that Magistrate Massie took yesterday, when he fined Dr. Jackson five dollars and costs for passing a street car that had come to a standstill.

Billiousness

When the liver refuses to work there is no remedy like the combination of dandelion, mandrake and other ingredients in Parmelee's pills. They bring help to the digestive organs, they do not gripe. They stimulate nature's action. They drive out the undigested food. Price 25c. a box.

Parmelee's VEGETABLE Pills

Whole Leaf Teas are worth 50% more than those of a broken and dusty character.

"SALADA"

Teas are free of dust sweepings and broken leaves. Every infusion is clean, fragrant and delicious.

Sealed lead packets only.—Never sold in bulk.

BROTHERS HELD $200,000 FRAUD

Bequeathed $500,000 Each Two Years Ago, All has Been Dissipated.

Paris, April 15.—Frauds involving $200,000 are alleged against two brothers, Robert and Pierre Lonen, belonging to a wealthy French family well known in Parisian society.

The young men are in custody on charges of obtaining valuables and money by false pretenses and also for attempting to extort money by threats.

Robert some time ago was sentenced to a term of imprisonment for attempting to swindle an American of $500,000. He appealed against the sentence and the appeal is still undecided.

The prisoners' father a few years ago left each of them $500,000 but this they quickly dissipated in a life of pleasure and gambling. They kept two beautiful suites of apartments in a fashionable part of Paris during the season gambled for high stakes.

All their fortune was dissipated within two years and since then the young men are alleged to have obtained valuable jewelry and furniture and sold it to meet gaming debts.

One complaint against them relates to a $5,000 pearl necklace. They protest their innocence of the fraud charges.

Cleveland complains because city water is overdosed with chlorine as a purifying agent.

Better Babies' Contest

Entry to this contest is absolutely free. We welcome every entry, regardless of whether the parents are our customers or not. The contest is wide open to all parents who wish to know more about their children and we urge you to take advantage of this unique opportunity. Ask the E. C. D. milk man for a pamphlet explaining about the contest or phone us.

MUNICIPAL HAIL INSURANCE TO BE TRIED IN ALBERTA

Twenty-three Grain Growing Localities Decide to Form District.

ONE BOARD TO ACT FOR THE ENTIRE PROVINCE

Taxes to Be Levied on Benefitted Parts to Raise Required Amount.

Municipal hail insurance will be tried out in Alberta this year. Twenty-three rural municipalities have voted to form themselves into a hail insurance district, these municipalities being largely in the sections which go in largely for grain growing, in the south and east of the province.

Amendments were made to the Hail Insurance act last session, by which one hail insurance board will act for the whole province instead of the reeves of each municipality acting in that capacity. The reeves met some time ago and appointed two representatives to the hail insurance board, these being J. H. Lamb, of Youngstown, and F. Baynon, of Cumer. The chairman of the board, E. H. Malcom, of Killam, was appointed by the government.

This board is now getting returns as to the area under crop in the hail insurance district and the amount of land assessable. From these returns this board will decide what rate shall be levied to provide adequate hail insurance and accordingly taxes will be levied by the municipalities to raise the amount required.

SAYS REAL ESTATE WILL TAKE A JUMP

Lumber Merchant Expresses Opinion That Money Stringency Last Gasp.

PAYMENTS COMING BETTER

Western Cities Have Learned Lesson of Over Exploiting of Land Values.

That the money stringency is easing up in Edmonton to a very considerable degree, and that the people in general have more money at their disposal than for some time past, is the opinion of J. J. Thompson, a wealthy lumber merchant of Orillia, Ontario, in Edmonton at the present time.

Mr. Thompson expresses the belief that not only will money become easier in the city but considerable large sums of ready cash will find its way into Edmonton real estate again this summer as soon as the building is at its height, and says that eastern people have not lost faith in Edmonton or the west on account of the present hard financial times, but on the other hand, believing the western cities to have learned a lesson in the over exploiting of land values will settle down to the steady and substantial growth that the shrewd eastern investor appreciates.

Mr. Thompson speaks with authority in the matter of easier money in Edmonton, as some three years ago in company with Geo. H. Clark and Adam Anderson of Orillia and Toronto, they purchased a large subdivision directly south of the Swift Canadian Packing plant, and put in on the market both here and in the east, and while for a time during the past year payments on the lots sold were coming in rather slow and uncertain, Mr. Thompson states that since the first of the year he has had little or no difficulty in collecting all due payments, and bases this fact as the foundation for his belief in the easier money in Edmonton.

Mr. Thompson has been staying at the King Edward and will leave for the east tomorrow.

ARRANGE EMPIRE DAY CELEBRATION ON LARGER SCALE

A celebration which will rival anything that has hitherto been attempted, will be held in this city on Empire Day, May 24. A very enthusiastic meeting was held last night in the Tegler block in the office of Leverman-Rendell company, when representatives from most of the fraternal and patriotic societies were present and ways and means were discussed for the holding of military and juvenile sports. It was decided that the program would be pretty much along the lines of last year only on a much larger scale, and flags to the value of $45 were ordered from the T. Eaton company.

The reason for this celebration is twofold. In the first place it has been thought advisable to observe this day in a fitting manner and secondly the proceeds of this celebration, after paying expenses will be used to form a fund for the starting of a convalescent home in this city. The officers are: A. H. Williams, president; Mr. Rendell, secretary-treasurer; Mr. King, recording-secretary.

Jail for Using "Knock Out."

Toronto, April 15.—"Les" McGillvray, found guilty of dropping carbon bisulphide, a poisonous drug, into a glass of beer about to be swallowed by Jim Gosling, his friend, was sentenced by Judge McMillan to two years in the penitentiary. The purpose of the dose was to temporarily "knock out" Gosling to permit of robbery.

MILADY'S PAGE

FASHIONS AND FANCIES

Conducted by Mrs Taylor.

THE GAY WORLD.

Dr. and Mrs. Brander, south side, left today for the coast and will visit Victoria and Vancouver. They expect to be back in the city on May 1.

* * *

According to Paris exchanges, Mr. W. E. Lines and Mr. D. C. Johnson, both of this city, are staying at the French metropolis.

* * *

Mr. and Mrs. James H. Smith, Twenty-fourth street, have returned from a trip to the coast. Mr. Smith immediately on his return here left for the east on business.

* * *

Mr. W. G. Atkinson, who while riding a few days ago met with a nasty accident, is now completely recovered.

* * *

Dr. Lynch, of Saskatoon, who was an interested visitor at the first Edmonton horse show, left for his home yesterday.

* * *

Mr. and Mrs. John R. McIntosh are expected back in the city from the east, where they were spending a vacation, tomorrow.

* * *

Miss Mabel Wilson is spending two weeks with friends in Lethbridge.

* * *

Commandant Feline, who was a judge at the local horse show, and who had nothing but praise for the initial attempt in this direction by Edmonton, has left the city for New York. He will stay there for a few days and then leave for Paris.

* * *

Mr. T. W. Quayle, formerly editor of the Lethbridge Herald, and Mrs. Quayle will shortly come to Edmonton where they will reside permanently.

* * *

Mrs. Harcourt is among the Edmonton visitors at the Calgary horse show. She is the guest of Mrs. C. A. Stuart.

* * *

Count De Charnace, of Calgary, who was in the city for the horse show, has returned home.

* * *

Mrs. W. D. Ferris, corner of Athabasca avenue and Connaught driveway, will not receive tomorrow.

* * *

Mrs. John Stocks will not receive tomorrow, nor again this season.

* * *

Mrs. Nightingale entertained at dinner before assembly Monday night. The table was prettily decorated with golden jonquils. The guests included Mr. and Mrs. J. J. Anderson, Mr. and Mrs. Pardee, Mrs. Baxter, Fort Saskatchewan, Miss Maxine Morris, Major Eaton, Mr. Hudspeth and Mr. Kenneth Ramsay.

This Skin Peeler All the Rage in Society

There is a growing tendency among women of culture and fashion to pay more attention to hygienic means of preserving their charms. The advent of mercolized wax doubtless has been largely responsible for this. This remarkable substance produces complexions so natural in appearance, so masterfully beautiful, artificial complexions are no longer desired. Instead of "doctoring" an offensive skin the skin is peeled off. The wax peels the skin so gradually, in such fine particles, no discomfort is experienced. The fresher, younger skin beneath, wholly in evidence within a week or two, is lily white, satiny soft and smooth. It's not a patched-over complexion, but a brand new one. That's why mercolized wax has become such a rage among society folk. The wax is put on nights like cold cream and washed off mornings. All druggists have it; one ounce will do.

Another hygienic treatment now much in favor is one to remove wrinkles, made by dissolving 1 oz. powdered saxolite in ½ pint witch hazel. Used as a wash lotion it "acts like magic."

Their Twenty-fifth Anniversary

Monsieur and Madam Royale were delightfully surprised on Sunday evening, the 12th instant, when a large number of their friends assembled at their residence to celebrate, and assist them in celebrating the 20th anniversary of their marriage and as a fitting souvenir of the occasion, presented them with a handsome dinner set of Haviland china. After a very pleasant social hour, Mrs. Royale assisted by Mrs. George Roy, her mother, Mrs. Antonio Prince, her sister and Mrs. A. Auger, served a dainty repast, the table being handsomely decorated, and laden with tempting viands.

The guests included Mr. and Mrs. J. H. Gariepy, Mr. and Mrs. H. Picard, Hon. and Mrs. Wilfred Gariepy, Hon. and Mrs. P. E. Lessard, Mr. and Mrs. A. Lefort, Mr. and Mrs. G. T. MARY PICKFORD IN "HEARTS ADRIFT" AT MONARCH THEATER

The Monarch will offer for today only "The Law's Decree" with the well known favorite Florence Lawrence.

The story shows the self sacrifice of a young girl for her mother who on being hard pressed had stolen to provide enough for the living of herself and her daughter. She was caught, sent to prison, and the story goes on to show the sacrifices of the young daughter, the untiring way she bears the hardships stir the emotion of all.

For Friday and Saturday, the world-wide known actress Mary Pickford, will appear in "Hearts Adrift," presented by Daniel Frohman and the Famous Players Film company.

It is needless to say anything about "Little Mary" as those who saw her in "Caprice" and "The Bishop's Carriage" know her cleverness.

By a special new arrangement the management of the Monarch is going to be able to show the Famous Players Film production at the regular prices that is afternoon 5c and 10c, nights 10c and 15c.

The Monarch deserves a great deal of credit for getting such a class of features as they are putting on as they are the highest class stars in the moving picture world.

The Monarch should score a great triumph for two days starting Friday when Mary Pickford plays an engagement in "Hearts Adrift." This photoplay is an especially appropriate theme for the four part drama in which Mary Pickford comes to Edmonton in the first coast production of the Famous Players company. The story is a sweetly pathetic one, it is Mary's own, and it lays bare the vagaries, the yearning and aches of three hearts that are, after all, merely human.

The young wife who is separated from her husband in a shipwreck, continues a search of many months for tinues a search of many months for him; the young husband who has been cast on an island where there lives but one other person, a girl, wild and lovely, mourns his wife as dead and eventually accepts the love of the island girl; the latter, to whom love is an entirely new and strange quantity, loves as wildly as nature has made her, brings the story to an end in a peculiar dramatic act.

The characters cast for the various roles are most satisfying. They are players whom Daniel Frohman recruited on the coast and his selection was a fortunate one. But not only in the choosing of the cast was he fortunate; the stretches of sand beach, the heights and ruggedness of nature's coast guard appraised by Mr. Frohman's artistic eye and used with wonderful effect are but a few of the settings that leave pleasant memories in the wake of the view-day of the film. The camera gathers in great heights and distances in its focus, showing a cope of the sky that up till now, no photoplay has depicted.

Mary Pickford is captivating in the role which "Hearts Adrift" offers her. The management of the Monarch guarantees in this production the finest offering ever given in Edmonton.

"POWER OF PRINT" GRIPPING YARN AT EMPRESS THEATER

A twentieth century story dealing with a theme that will be of particular interest to everyone of today, developed in a spirit of the times, is "The Power of Print," the two-reel feature film that will be offered at the Empress photoplay theater for today and tomorrow's program. It deals with a newspaper theme and the title gives plainly the subject of the production. It is a well-known fact that the powerful influence of the newspaper holds over the community, and in this picture there is utilized the existence of this state of affairs in the presentation of one of the most interesting and entertaining motion picture plays that has been produced by the noted house of the Pathe brothers for some time.

"The Episode at Cloudy Canyon," a powerful western drama emphasizing the fine manly quality of brotherly love, is another of the films that will be shown on this program. It is an Essanay picture, whose name for the manufacture of western movies few if any producers excel. But few western themes are exhibited at the Empress theater, for the critical management have felt that there has been an overabundance of this sort of pictures, nevertheless there are but a small number of motion play subjects that present greater opportunities for successful presentation, from the standpoint of the spectator's interest and that of the manufacturer in the way of backgrounds, atmosphere, and characterizations. "The Episode at Cloudy Canyon," however, comes to the management of Edmonton's prettiest picture house with splendid reputation, and it can be well assured that much genuine entertainment will be secured from its exhibition.

Today and tomorrow will be the only dates this program will be offered.

Musical Festival Practice.

The large chorus practice will take place as usual in the assembly hall of the McKay avenue school tonight at 8 o'clock. All those intending to join this chorus are requested to put in an appearance and register on that evening. All singers throughout the city are cordially invited to join. The work to be sung this year is "The Crusaders" by Gade, a splendid martial composition. The choral work is supplemented with soo wishich are to be taken by prominent vocalists of the city.

ANNA Q. NILSSON

Showing at the Empress today in the "Power of Print."

"MUTUAL GIRL" AT BIJOU THEATER MORE POPULAR THAN EVER

The ninth installment of the most popular and famous motion picture serial production now on the boards, "The Mutual Girl," will be one of the features on the Bijou program for today and Thursday. The adventures of Margaret, the Mutual Girl, are in this chapter further pictured. She meets Dorothy Dix, the authoress and newspaper writer, attends a performance of the "High Jinks" at one of the large New York theaters, and is seen in one of the smartest hair dressing parlors of the metropolitan city purchasing a number of the most recent fads of Dame Fashion—the colored wigs. The film will make one of the most interesting of the early numbers of this celebrated series

A beautiful sea story is told in the picture, "A Romance of the Sea," one of the other films that will be seen on the Bijou screen together with "The Mutual Girl." Sea stories make some of the finest picture subjects obtainable, for the moving picture producer has at his hand the background and setting that are really unbeatable for a picture production. There is an atmosphere about a sea film that makes the audience somewhat feel as though the actuality were truly before their eyes.

"A Romance of the Sea," touches upon a pretty theme and will doubtless offer splendid entertainment.

A Keystone comic film will close the program.

Scene from "Hearts Adrift" with Mary Pickford in leading role, showing at the Monarch theater Friday and Saturday.

English Plays In Paris.

B. Iden Payne, who recently directed the Fine Arts Theater Reperatory company in Chicago, is to do a season of English plays in Paris this summer. Whitford Kane, who was popular with the company, is to be a member."

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots. How to Remove Easily

Here's a change. Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of othine—double strength from any druggist and a few applications should show you how easy it is to rid a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength othine as this is the prescription sold under guarantee of money back if it fails to remove freckles.

TWO ANCIENT COOKING RECIPES.

Mrs. Champ Clark, wife of the speaker of the United States house of representatives, has recently given for publication the two following recipes, which are unique in regard to the spelling as well as for the famous people who formerly used them:

Martha Washington's Recipe for Pear Preserves

"Ye pears should be very freshe. Washe and put yhem into boiling lye for a minute. Remove and place yhem into cold water. Next put ye fruit into a prepared sirupe of sugar and water. Use an half pound of sugar for everie pound of ye fruit, water to dissolve. Now cook for a quarter of an hour. Remove and put on plates to cool. Boyle sirupe down to one-half its original quantitie. Put sirupe and pears into jars and add brandy. Seal while hote."

Interesting to compare with these is the following twentieth century dinner menu prepared by David Fairchild, agricultural explorer in charge of the seed and plant introduction of the department of agriculture, whose effort it is to reduce the high cost of living by introducing new vegetables and fruits or cultivation in this country; Jujube soup, Brisket of Antelope, French Fried Dasheens, Creamed Udo, Baked Breadfruit, Boiled Petzal, Lichee Nut Salad, Mangoes.

The following is my recipe for baking ham. I got it from Mrs. John Burke, of Alexandria, Va., a great-granddaughter of Thomas Jefferson, in whose family it has been used ever since it was first tried in the Jefferson kitchen at Monticello.

Baked Spiced Ham.

(A la Jefferson and Clark)

Select a nice ham, from 12 to 15 pounds; soak over night in cold water; wipe off and put on enough water to cover; simmer for three hours. Let cool in the water it was cooked in; take out and trim; put into the baking pan, stick with cloves and cover with brown sugar; bake in a moderate oven for two hours; baste with white wine or vinegar. Serve with salad of any kind, preferably savory salads.

Dramatic Reference Book.

The most exhaustive theatrical reference book ever compiled has just been brought from the press by H. S. Hanaford of New York. It is "Who's Who in Music and Drama," and contains the biographies of more than 1,500 important musical and dramatic artists, managers, dramatists, composers and others contributing to the success of the stage, as well as records of new plays, players, etc. It has been in complication for more than three years. Dixie Hines is the editor.

PROPERTY OWNERS ASSOCIATION IS AGAIN ATTACKED

President of Body Not Lived Up to His Statements Says Clarke,

OFFICIAL REPORT RE "CONTENTIOUS" BYLAWS

Sufficient Protection for the Ratepayers is Opinion Expressed,

The "contentious" bylaws covering the city's share of 1913 local improvements came up again for considerable discussion and Alderman Clarke stated that the president of the Property owners association had not lived up to his statements after the bylaw changing the bylaws from creating a debt to assuming a debt was brought down. The deputy commissioner of finance and the city solicitor had a joint report before the city council last night. These city officials state that in their opinion the bylaws are not inconsistent with the notices and the notices are not inconsistent with the resolutions of the council. The latter words of the notices stating the term of debentures, etc., are in their opinion mere surplusage. The main part of the notices state that debt in that sum is to be created, is to their minds correct, as in order to transfer part of the local improvement debt to the city at large it is necessary to create a general debt.

In Sufficient Protection

The sections in the bylaws stating that no debentures shall be issued appear to them to be sufficient protection. If any future council should endeavor to issue debentures under such bylaws the mayor and treasurer would have no authority to sign the same, and any proposed action on such lines could be prevented by injunction. Furthermore, as any proposed debenture buyers would ask for a copy of the bylaws, under which the debentures are to be issued, they would at once see that the bylaws provided that no debentures were to be issued and naturally would not enter into any negotiations to purchase securities which the bylaws distinctly said should never come into effect.

No Authority Left

Therefore, in order to raise any further money under these bylaws, a future council would have to act illegally, the treasurer and mayor would have to act illegally, the debenture purchasers would have to take the debentures knowing there was no authority to issue the same, and furthermore, it would be necessary for the assessor to act illegally in placing on the tax roll a sufficient sum to pay the sinking fund and interest, and even then any tax-payer could take proceedings to prevent the levying of that rate. In the opinion of J. C. P. Bown and C. L. Richardson, these contingencies are no remote one, it would be impossible to make any sale of debentures under these bylaws.

The report was adopted.

Russia produces nearly all the world's supply of platinum, about 12,259 pounds annually. In 1892 it cost $39 a pound and it is now worth $488 a pound.

FARMERS FAVOR STARTING STOCK YARDS IN CITY

Mayor to Place Valuable Information Regarding Scheme Before Committee.

HEAR PROTESTS AGAINST CLOSING FIFTH STREET

Proposal Approved by All Except Three Residents in Vicinity.

A communication was before the council last night from the United Farmers of Alberta stating that they viewed with favor the efforts of the Edmonton city council to establish union stock yards at Edmonton on a fair and equitable basis.

The mayor stated that he had received valuable information and data while in the east relative to these stock yards which he was going to place at the disposal of the committee who are looking into the matter. The communication of the United Farmers was referred to the parks and markets committee to take up when considering the mayor's data.

Commissioner Booth submitted a report giving the monthly statement of the civic relief department. The report states that there were 488 positions secured, relief given to 881, thousands of beds and meals supplied and a large amount of clothing distributed gratis.

Before the report was filed Alderman Clarke stated that in his opinion the relief work should be cut down to the lowest possible minimum in order that the transients and non-residents who impose upon the city during the winter will be forced to obtain work and not be in the same state as last year. He pointed out that at the present time there is ample work for all on the grades and in construction camps and the council should see that the people who would not work will not return in the fall.

The city council authorized the construction of a sewer in Virginia park to drain blocks 1, 2, 3, 4, 5, 6, 7 and 8 at an approximate cost of $15,500.

City Solicitor Bown recommended that the meeting of the council on Tuesday, April 21st be fixed as the time and place for the hearing of all claims against the closing of part of Fifth stret east. The report was adopted and a resolution was passed authorizing the city clerk to issue the necessary notices to this effect and act on the advice of the city solicitor. The closing of the 596 feet of this street situated in Strathcona has been consented to by all but three property owners.

BRANCH LIBRARY FOR NORTH SIDE

Council Authorizes Purchase of Property and Cost For Building,

INCLUDED IN ESTIMATES

Librarian States $5,000 on Hand for Such Extension Work.

It was decided at last night's meeting of the council to authorize the purchase of lot 4 block 7 Delton, and the building of a building for a branch library for the north Edmonton citizens. The cost of the building is not to exceed $4,000.

A. T. Mode addressed the council and stated that the Central library situated near Fourth street is too far down town for the use of the north Edmonton people and that there were a number of books that were old or surplus which are in the central library that could be used in this branch. The committee of the library board, continued Mr. Mode, has secured an option on lot 4 block 7 which is directly across from the North Edmonton fire hall, for the sum of $1,200. Mr. Mode informed the council that it is the intention of the library board to make the building of a temporary nature and in the form of a dwelling in order that it may be able at any future time if deemed advisable to sell or rent at a good price.

E. L. Hill the librarian in charge of the central library stated that there has been $5,000 included in the estimates for extension purposes and that this amount would not be a cause for further taxation but the library board had to come to the council for authorization on all amounts exceeding $1,000. The provincial government gave a grant of 10 per cent. which would in this case amount to $500, and this sum would go a very long way in purchasing new books. Mr. Hill informed the council that last month the circulation of books was 23,000 in Edmonton and this was only exceeded by two cities in Canada namely, Winnipeg and Toronto, irrespective of the somewhat out-of-the-way place of the present central library. He stated that the library board are considering the erection of a new public library building in the near future.

Argentina's 1913 imports amounted in value to $406,603,200; exports, $466,581,988.

Gained in Weight, Digestion Restored, Health Renewed

Here is More Proof of Quick Cure for All Folks that are Weak, Ailing, Nervous.

More Praise for Dr. Hamilton

"For a period last summer the thought of food excited feelings of nausea," writes Mrs. C. A. Dodge, of Bloomsbury. "The heat had made me listless and the distaste for food reduced me to a condition of semi-starvation and brought me to the verge of nervous collapse. Tonics were useless to restore an active desire for food. The doctors told me my liver and kidneys were both at fault, but the medicines they gave me were too severe and reduced my strength so that I had to abandon them. At the suggestion of a friend who had been cured of blood and skin trouble, I began the use of Dr. Hamilton's Pills. The difference I first noticed was, that while they cleansed the system instead of feeling weaker I felt better after taking them. Indeed their activity was so mild it was easy to forget I had taken them at all; they seemed to go right to the liver, and in a very brief time not only did all source of nausea disappear, but I begun to crave food and I digested it reasonably well. Then I began to put on weight until within three months I was brought to a condition of gobd health. I urge Dr. Hamilton's Pills for all who are in poor health."

Get this best of all medicines today and refuse a substitute for Dr. Hamilton's Pills of Mandrake and Buttermut. Sold by all druggists and storekeepers, 25c per box or five for $1.00. Sent postpaid by The Catarrhozone Co., Buffalo, N. Y., and Kingston, Canada.

COUNCILLORS NOT SATISFIED WITH BYLAW RESULTS

Suggested That Another Plebiscite Be Taken On Street Naming,

RETURNING OFFICERS AND POLL CLERKS CRITICIZED

States That Decent Voters Were Brow Beaten and Their Rights Refused.

Up to the present there has not been much open discussion upon the results of the bylaws but last night, when the returning officer submitted his certificate the aldermen vied with each other to get the floor. The street numbering result and the form of ballot was the main topic under discussion and the results of the bylaws was received and ordered filed.

Alderman Driscoll did not think that the street numbering ballot was fair and thought that an alternative scheme should have been presented. He added that the late mayor was defeated because plebiscites were not given to the people and the plebiscite on street numbering was bred in haste. He did not think the council acted wisely in submitting the form of ballot used.

Wanted Confusion Ended

He had never taken part in this street numbering or street naming debate, but he thought the only business was to complete what had been done in 1913. The confusion must be ended at once and the way to end the confusion was to complete the numerical system and give notice that it must be used. As soon as we get down to the numerical system we will see that the confusion cannot be ended. In regard to the other votes he stated if there were appointed such a bunch of incapable returning officers again he was certainly going to make a protest stronger than he did this year. "Just common ordinary drunks were the men who were campaigning for one or the other measure. Decent voters were brow-beaten and were refused their rights. As a matter of fact, those who wanted to see a fair election had to coax the people to go in and vote; and finally they had to go in and count the ballots for those who were not capable of doing it."

He hoped it would be a well learned lesson for the members of the council, that they must protect themselves against their friends as well as their enemies.

Lesser of Two Evils

Alderman May stated that he had voted for the Edmonscona scheme as the lesser of the two evils and was of the opinion that when the bylaws that to be submitted in the course of a few weeks were being voted upon an alternative street numbering system should be submitted favoring the establishing of a system whereby the south side would be changed and the north side of the river retain the old system that was in vogue during 1912.

Alderman Kinney stated that he thought these post mortems came with very poor grace. He consistently supported the all-numerical scheme, and as the mandate of the people was for the all-numerical system this scheme should be carried out.

Upon motion Alderman Calder and Douglas, it was decided to carry out the scheme under the all-numerical system. The mayor gave his casting vote in favor of the motion.

Lobsters are now caught with a snag consisting of a circle of hooks hanging under a piece of bait.

SAYS PERSONAL SPITE AGAINST HEALTH OFFICER

Council of Opinion Dr. Whitelaw Should Be Paid Costs,

THINK DETAILS OF CASE SHOULD BE MADE PUBLIC

Dr. Jindra, He States, Was Encouraged By Friends to Start Trouble,

Robert English, secretary to the city commissioners, submitted a report to the city council yesterday evening relative to the suit of Dr. Jindra versus Dr. Whitelaw, the medical health officer.

A copy of letter from Dr. Whitelaw is given in the report in which he states that he enclosed a bill of costs in this connection and that the action had been dismissed for lack of prosecution. "This action was brought against me by Jindra, continues the medical health officer, encouraged by his friends, apparently without any intention of ever carrying it to court or with the expectation that I would be willing to pay a certain amount to have the proceedings dropped. I became entirely involved in this matter because of my action taken as medical health officer of the city of Edmonton, in the interests of the city. I therefore consider that these costs, the amount of which it is impossible for me to collect from the plaintiff, should be borne by the city.

I should be glad to have the opportunity of showing to the council the full details of this nefarious matter, and to the extent the conspiracy organized against me was carried last summer, in the hope by the conspirators that it would drive me from the position I occupy as medical health officer of the city of Edmonton."

Dr. Whitelaw, in conclusion, states that should the council desire to see the legal papers in connection with this matter before deciding as to the matter of the account, he would be glad to furnish them.

A recommendation was embodied in the report recommending that the amount be paid, which is for the sum of $138.45.

The report was referred to the committee of health and safety. Alderman May stated that he was of the opinion that this charge was a personal spite against the medical health officer and was in favor of having everything made public and the matter cleared up.

Huntsville, Ala., is to have a Carnegie library building and will pay $1,500 a year for maintenance.

BOOTH SUGGESTS PAYMENT BE MADE FOR PAVING WORK

Agreement Made With Council That Completed Work to Be Settled For,

CITY TO FURNISH TEN YEAR 5 p.c. DEBENTURES

Engineer has Approved of Contract Most of Which Now Completed.

A commissioners' report signed by M. S. Booth, of the health and safety department, was before the city council last night with regard to the Magrath-Holgate paving agreement to the Highlands, along old Jasper east.

In September, 1913, a sufficiently signed petition was received for the carrying out of this improvement, and according to the engineer the cost was not to exceed the sum of $108,000, and to be assessed as a local frontage assessment. There was an agreement entered into between Magrath-Holgate and company and the city to the effect that the city would pay in cash or debentures up to the amount of the completed work and up to 90 per cent. of the uncompleted, on the 15th day of January, 1914, upon the recommendation of the city engineer. In addition to this the contractors were to furnish $6,000 for the purchase of a right-of-way.

The city was to furnish ten-year debentures bearing five per cent. interest until January, 1914, and if the city did not sell these debentures by January 15, 1914, then the same would be turned over to the contractors at the rate of $94 per $100 worth. These debentures have never been issued by the city. The National Paving and Contracting company, limited, were assigned the contract. Up to the present time no money has been paid to the contracting firm. The city engineer approved the payment of $2,849.63, which is 90 per cent. of the amount of the work done up to the present time, but up to the present this amount has never been paid.

Mr. Bown states that he has personally gone into the matter with Mr. Magrath and Mr. Parlee, his solicitor, and so far as Magrath-Holgate are concerned, they are only too glad to have the work financed in the usual way, and further adds that the National Paving company prefer cash to debentures.

Magrath-Holgate have paid into the city treasury $8,419 in payment of right-of-way, and Commissioner Booth in his report recommends that this amount be refunded to the Magrath-Holgate company, together with the sum due of $2,849.63 to the National Paving company, and this contract be carried out hereafter as other contracts, under the local improvement assessment plan, and the expense thereof be added to the paving estimates.

Upon motion of Alderman Calder the report was referred to the public works committee for investigation and report to council at the next regular meeting.

FRUIT LAXATIVE IF CONSTIPATED, TAKE "CALIFORNIA SYRUP OF FIGS"

Best Liniment of All Destroys Every Pain But Never Burns.

"How thankful we are to get hold of such a wonderful household remedy as Nerviline," writes Mrs. E. P. Lamontagne from her home near Wetaskiwin, Alberta. "In this far-away section, far away from a doctor or druggist, every family needs a good supply of liniment. Nerviline is the best of all. It destroys every pain, but never burns. We use Nerviline in a score of ways. If it is rheumatism, aching back, pain in the side, sciatica or stiff neck—you can laugh at them if you have lots of Nerviline handy. For earache, toothache, or cramps I don't think anything could act more quickly. For a general all-round pain remedy I can think of nothing more valuable and speedy to cure than Nerviline."

The above letter is convincing—it tells how reliable and trusty this old-time remedy is. Nerviline for forty years has been a household word in Canada. Scarcely a home in Canada you can find without Nerviline. Every community has its living examples of the wonderful curative properties of Nerviline which will cure pains and aches anywhere in the joints or muscles. It's penetrating, soothing, warming and safe for young and old to use. Get the large 50c family size bottle; it's the most economical. Small trial size, 25c, at any dealer's anywhere.

DOINGS OF THE CITY COUNCIL.

Favored communication from United Collieries offering to supply the city with power.

Account of McIntosh and Hyde for special audit was referred back to finance commissioner for report as to correctness of claims.

Civic relief report filed.

Recommended payment for paving work in Highlands.

Returning officers censured by Alderman Clarke for method of conducting bylaw voting.

Decided to complete all-numerical scheme of street numbering at once.

Discussed question of charging baseball club for advertising on the street cars.

Appointed Alderman East as deputy mayor for the next three months.

Adjourned until Thursday afternoon.

Sketch Not Censored.

After Deputy Chief Wright and R. B. Chadwick had been present at the matinee performance yesterday at the Pantages for the express purpose of seeing for themselves whether or not the sketch entitled "Truth" was as bad as it had been reported and whether it would be necessary for the police to forbid any further exhibition of it, they found that it did not warrant any interference on the part of the police whatever. This sketch depicts conditions of the underworld.

TABLES ARE TURNED; EDMONTON SUPPLIES EAST WITH BUTTER

This week a carload of fresh butter from the Edmonton district was shipped by the Swift Canadian company to points in the east, an almost unheard-of thing. This firm has also shipped five carloads of dressed meat daily during the past week to points in the United States.

DR. DeVAN'S FEMALE PILLS Reliable monthly medicine for all Female Complaint. $5 a box, or three for $10, at drug stores. Mailed to any address on receipt of price. The Scobell Drug Co., St. Catharines, Ontario.

PHOSPHONOL FOR MEN Restores Vim, Vigor and Vitality; for Nerve and Brain increases "grey matter"; a Tonic—will build you up. $5 a box, or two for $5, at drug stores, or by mail on receipt of price. The Scobell Drug Co., St. Catharines, Ontario.

Sold at Lines Drug Store and The Thrasher Drug Co.

CLEARING SALE

FOR EASTER HOLIDAYS

"QUALITY PIANOS" Must Be Sold

My large stock on hand at HARMONY HALL of 35 CHOICE PIANOS and PLAYERS must be reduced, and will be marked down to

1/4 One-Quarter Off

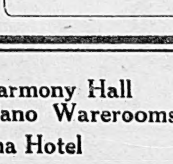

25 PER CENT. REDUCTION

from Wednesday, 15th, for remainder of April

Magnificent Pianos by Steinway, Nordheimer, Haines Bros., Kohler Co. of New York and other leading makers in variety.

EXQUISITE TONES in EXQUISITE WOODS

All offered on the easiest terms of payment, with a special extra discount for cash in full.

It's a rare occasion indeed when buying a Piano that you are able to **"BURN THE CANDLE AT BOTH ENDS"**—but reduced prices and reduced terms now available at Harmony Hall only, fills this occasion exactly.

Ordinary pianos of the trashy, flashy type can always be bought anywhere at low prices; but it is very seldom that **THE WORLD'S BEST PIANOS** are offered as per foregoing inducements.

Come Early to Harmony Hall Warerooms

and make your choice. Don't wait until the best are selected. The present is your opportunity. **A few Cabinet Pianos in Fumed Oak Cases as low as $185 are offered**

SPORT SCRIBES HAVE HAD MERRY TIME DURING WINTER, WRITING "DOPE" ON THE BASEBALL WAR

Charles Ebbets Started the Ball Rolling, Then Tinker Stepped in, and Added to the Fun—Charles Webb Murphy and John Evers Also Helped to Make "Copy."—John Tenor and Ban Johnson Also in the Limelight.

(By Frank G. Menke)

And now that the snows of yester year have skidded hence or thence, and the old base burner that warmed our chilled shins during the past six months has been chucked into the cellar, we come to the realization that the winter league season is over, and that baseball is with us once again.

The Feds pried off the lid in an official manner Monday and the Organized Majors did the same little thing in their leagues yesterday. And from then on until the autumn leaves begin to flit hither and thither, and the football gladiators rush into the spotlight once again, America will be afflicted with its annual summer madness, known as baseballitis.

"You Can Never Tell"

Looking back over the happenings of the past five months one suddenly realizes the truth of the statement that "you never can tell." In the early section of December it looked as if those persons who provide bread, butter and other things for themselves through punching out little sporting articles were confronted with a mighty—a dreary—task. The prospects were that nothing would happen during the interval before the regular season opened again, and that one would have to draw quite largely upon one's imagination—and memory—for little squibs now and then.

But the signs fibbed. So many things "busted" between December and this day and date that it kept one up rather late at night figuring out not what one could write about, but, rather, figuring out which subject one should select out of a score or more of subjects.

Joe Tinker Started Trouble

As may be remembered, Garry Herrmann and Charles Ebbets, the fuzzy old marauders, who have a liking for Waldorf wine, started things agoing by framing up the Tinker deal. Then Tinker stepped in and set them whizzing along faster, by issuing an ultimatum to Ebbets "More here than you offer or I'll hop to the Feds."

And then along came Ebbets, carefree and happy, thinking he had Tinker where Tinker's spinal column seemed to be rubbing up and down against a blank wall, murmuring "Ha, ha, jump if you wanter." And that's what Josephus did, much to the surprise of the baseball world in general, and to the greater surprise of the aforementioned Mister Ebbets, who since has lost a lot of his girlish laughter and a considerable portion of his care-free happy manner.

Federal League Took Form

And then events happened so fast that it seemed as though some one were staging a lightning change panorama. The Federal leaguers, that had been merely looming in the offing up to the time that Tinker looped-the-loop and which organization was not given much thought by anyone, suddenly blazed up largely on the baseball horizon.

The loop front stunts of the majors who couldn't resist the bulging Federal bank rolls, the threats of Organized baseball to sue the Federals, choke 'em to death, boil 'em in oil, and eat 'em alive and other loud talk of like nature, furnished more copy.

And then, just when things seemed about to resume their normal status, just about the time when the Feds ceased to be a sensation and were voted as among those present, just when it seemed as if things would quiet down, along came Charles Webb Murphy, who poked his frame into the spotlight by suddenly canning the peppery Mr. Evers.

John Evers Also Jumped.

Once again teams and reams of copy were available. Where would Evers go? What would happen to Murphy? Would Evers jump to the Feds? These and a score of other little questions on the same order seemed to call for answers, and in a dutiful way the composers of sporting squibs attempted to answer them.

After Mister Murphy was duly and completely canned from his Cub presidenting job, the world tourists scudded across New York bay and a merry scramble for the services of the unsigned players between the Feds and O. B.'s ensued, the ensuing resulting in lots and lots of copy.

All in all it was one of the busiest little seasons that the oldest sporting inhabitant has ever known. From the moment that the National League magnates staged their annual battle in the Waldorf on December 9, canning Tom Lynch and injecting John Tenor into their midst, there have been few dull moments. When it looked as though there might be a slight lull in the proceedings, Ban Johnson, who proxies for the American league, would burst forth with a savage attack on the Federals.

Ban Johnson At It Too.

Ban is to be thanked for something else, too. After the National Commission, sitting in Cincinnati in January, granted most of the demands of the Baseball Players' Fraternity, and it seemed that peace would reign and there'd be nothing left to write about for a week or two, Ban stuck his feet under a banquet table and loosened a savage attack upon Dave Fultz, president of the Fraternity, who happened to be absent from the room at the time.

Of course, this made considerable copy, because Ban's speech came as something of a surprise in view of the fact that right up to the minute that he climbed Davey's frame it seemed to everybody that he and Davey were awfully good friends.

Usually a baseball scribe looks forward to the summer months "when baseball reigns in the land, as a season of hard labor. But this season it will be something different. After a winter in which so many things happened, and continued to happen, one after another, and one on top of another; after a winter in which he got no rest, but had to labor at double speed, he looks forward to the opening of the baseball season as the beginning of six months of vacation for him.

Strathcona Athletic Association.

At a general meeting of the above athletic association last evening it was decided that the association go strongly into the games of baseball, lacrosse and football, and the club will place teams in the various city leagues. On Arbor day the club intend holding a field day when all the games in which they have teams will play. Although the association is but newly organized, they fully expect to increase their membership to 300 by the end of this season.

British Rugby Practice.

The British rugby team, composed of players from the Eskimos, Civics and the University, will hold their first practice this evening at Diamond park at 7 o'clock sharp.

Swift's Trim City Dairy.

In an exhibition soccer football game last night, played at North Edmonton, the Swift Canadian team trimmed the City Dairy eleven by the score of 4 to 0, and had all the better of play.

UNIVERSITY WINS AT BASKETBALL

Are City League Champions—Defeated Old Timers Monday, But Lost Last Night

Varsity are basketball champions. Champions of the Edmonton senior league, to be correct. They were beaten by the Old Timers last night on Varsity floor 30 to 24, but on Monday night at the Y.M.C.A. they slipped it over (over and under and all around) the same team by the record score of 62 to 28.

To pile up such a score against the Old Timers sounds almost impossible, but the students did it, and therefore won the round and the title. Monday night's game was a farce. The students had it all over their opponents at all stages of the game. They played them off their feet. The Old Timers could not get going. One of the students alone scored 17 baskets and numerous fouls. Truly it was an awful slaughter.

But on Varsity floor last night, my what a change. The students got trimmed right in their own back yard. The score was 30 to 24. Old Timers had their strongest lineup on the floor in an endeavor to overcome the big lead of the previous evening, but nothing doing along that line. Last night's game was hard and fast and rather rough and hard checking were the features. Also the basket shooting of Jimmie Bill. James had an off night and only scored eight baskets. Six of these were of the sensational variety, being scored at long range in the first half. Bill Taft had a whale of a time refereeing the game. He was impartial at all times but got so excited on one or two occasions that he dropped his whistle and chased the ball.

The basketball season is now over, and it has been most successful. Six good teams have been in the senior league and all have made a good showing right through the season. Games have been hard, fast and strenuous, but a genuine feeling of good sportsmanship has prevailed at all times (except when the High School licked the Colts.)

Percy Hammond, captain of the Old Timers and secretary of the senior league reports a balance of four cents in the said bank due to the furnace room. This money will go towards buying medals and coat sweaters for the league champion Varsity team. Following are the lineup of the teams:

Old Timers.	Position.	Varsity
Hammond	center	Mattern
Bill	forward	Spence
Martine	forward	Stanton
Elliott	guard	Fife
Clarke-Dawe	guard	Love

WHITE SOX WIN FROM CLEVELAND

Thrilling Contest Ended 5-2—Was Pitchers Battle for Six Innings.

Chicago, April 15.—A batting rally in the seventh turned defeat into victory for the Chicago Americans in the opening game of the season here yesterday. Cleveland losing a thrilling contest to the White Sox by 5 to 2. A two base hit by Tom Daly, a recruit from Lowell, Mass., who was sent in to bat for Schreiber, drove Bodie across the plate with the winning run. Up to the sixth the game was an air-tight pitching battle between Scott for Chicago and Mitchell, Cleveland's clever left hander. The Sox at last routed Mitchell and Blanding finished the game, another Chicago batting streak adding two more runs for good measure in the eighth on timely hits.

Caledonian Football Practice.

The Caledonian football team will hold a practice tonight at 6.45 on the old exhibition grounds. All the regular players are asked to turn out.

THE WORLD'S GREATEST WALKER.

Edward Payson Weston was 76 years young on the 15th of March, last. He is the greatest long distance walker of recent years, and this is all the more remarkable because of his advanced age. In 1910 he walked from Los Angeles to New York, a distance of 3,488 miles in 77 days. In 1909 he walked from New York to Frisco a distance of 3,895 miles in 105 days. Weston stands 5 feet 8 inches and weighs 135 pounds, is as hard as a rock, never sick, and enjoys life by walking.

National Bowling Congress.

Atlantic City, April 15.—Louis Franz, Cleveland, stepped to the fore in the individuals at the National Bowling congress here yesterday. He rolled 655, starting off with a sheet of 257 in the first game.

Joe Franz-Theis pair Cleveland, top the two man teams with Higgins and Hopkins, Philadelphia second, Chris. Theis, of Cleveland, has high average for the nine games, his aggregate reading 1,384.

The Genesee Quintette still retains its comfortable margin at the top of the five man squad with their new worlds mark of 3,035.

Edmonton Football League.

A meeting of the Edmonton Association Football league will be held in the Y.M.C.A. this evening, when matters of important business will be taken up and the registration blanks for the season will be given out to delegates of each team who intend entering the league this year. 8.15 is the hour.

Strathcona Rugby Club.

The Strathcona British rugby club will hold a practice at the south side athletic grounds Thursday evening at 6.30. The prospects for the south side team look bright, as about 20 players are available for the team.

Des Moines has decided to increase pay of firemen.

DETROIT TIGERS WIN FIRST GAME FROM ST. LOUIS

Ty Cobb Drove Out Two Bagger in 13-inning and Won the Game.

Detroit, Mich., April 15.—Bonfires were flickering through the haze in center field in the last half of thirteenth inning, when Ty Cobb drove a triple to the score board which counted for two runs, and a moment later came home with the tally which enabled Detroit to take the opening game of the season from St. Louis 3 to 2.

It was a pitcher's battle from beginning to end. Neither team scored until the final inning, when good, bad and reckless ball gave St. Louis two runs and inspired a Tiger rally which brought back memories of championship days. For 12 innings, the struggle was even. Each team threatened again and again to score; on more than one occasion runners were cut down at the plate. In the eleventh Cobb risked a broken leg in an attempt to decide the struggle; in the thirteenth Agnew scored the second run for St. Louis by a reckless diving slide and was carried off the field with a spike wound in his foot.

Dubuc pitched wonderful ball for 12 innings. In the thirteenth he wrenched his weak knee while fielding a bunt and gave way to Dauss.

BROOKLYN TRIMS BOSTON 8 TO 2

Governor John K. Tenor Pitched First Ball—Flag Was Raised.

Brooklyn, April 15.—The National league season was opened here yesterday with a hurrah. Governor John K. Tener of Penna. president of the league, throwing out the first ball, the contesting teams raising a new American flag, a band playing, and Brooklyn beating Boston 8 to 2. There was a presentation of a monster horse shoe of flowers to Manager Robinson, who pleased the big crowd of fans by showing them a team apparently far ahead of last season's in aggressiveness and all round work. They outplayed the visitors in every department yesterday, batting hard and running bases well. Reulbach pitched brilliant ball during the seven innings he occupied the box, being taken out when the game appeared safe. Boston's two runs were the result of a scratch hit by Deal, a single by Whaling and Crutchers' double.

Every time the carp breathes it moves 4,386 bones and muscles; its veins number 4,329.

SUTTON WINS SECOND BLOCK OF BILLIARD MATCH FROM BILLY RYLE

Fine Exhibition Last Night in Close Game—High Runs Were 29 to 34—Final Block Tonight at Empire Hall, Will Be Best Yet—Game at 8 o'clock.

H. Sutton turned the tables in the 18.2 balk line billiard match with Billy Ryle last night in the second block of their match at the Reno billiard hall. Sutton played fine billiards all the way and kept up a continued counting in every inning. His positon play was good and drew applause from the large audience.

His high run was 29, which he made to finish the block. In this run he played fine billiards, making all of his score on the short rail. Ryle was in poor stroke and could not get the balls rolling his way. He made the high runs of the game, his best being 24, which he made in the 18th inning.

He showed all kinds of billiards in this run, making draws, follows, and masse shots, but missed on a very simple shot, the ball rolling off on a thin spread shot. The third and last block will be played at the Empire billiard hall tonight, and for Ryle to take down the $200 purse he must make 205 points before Sutton scores 200.

This will be the best block of the match, as it will make a big difference to the player whether or not he wins the purse. The game will start at eight o'clock instead of 8.30, and after it is over there will be an exhibiton of fancy and trick shots.

Following is the score of last night's game: Sutton 276, high run 29, average 6 1-2, grand total 400. Ryle 235, high run 34, average 6, grand total 435. Referee, Mr. Young.

GEO. MITCHELL KNOCKED OUT FIRST ROUND BY CARPENTIER

Englishman Gets Severe Pounding From French Heavyweight Champion—Knocked Down Five Times in Less Than Two Minutes.

Paris, April 15.—Geo. Mitchell, the amateur heavyweight champion of North England, was knocked out last night by the French champion Georges Carpentier, in the first round after one minute and 35 seconds of fighting. At that, he managed to last 22 seconds longer against the Frenchman than did Bombardier Wells in his bout with Carpentier at the National Sporting Club in London a few months ago.

Mitchell, who is a nephew of P. W. Illingworth, the chief liberal whip in the British parliament, hails from Bradford. He stands six feet 3 inches and weighs 177 pounds, about the same weight as Carpentier. He had the advantage, however, of his great height and reach.

In the single round of the fight Carpentier knocked the Englishman down five times. Four times he managed to but in the fifth knockdown the referee got to his feet after the count of nine, counted only as far as six and then said: "Gentlemen the fight is over. This man has had enough."

Mitchell entered the contest, he said, in advance, with no idea of beating Carpentier. He was merely curious to see how long he could last. He displayed great pluck and managed to land one or two blows on the Frenchman's chest and shoulders. Before he was finally disposed of he delivered one vicious swing which doubtless would have knocked out the Frenchman, but it failed to find the mark by a fraction of an inch. The genuine sporting nature of the match and Mitchell's modesty aroused great interest in England and France and the gymnasium where the contest took place was crowded to the doors.

PHILLIES SWAMP NEW YORK 10-1 IN OPENING GAME

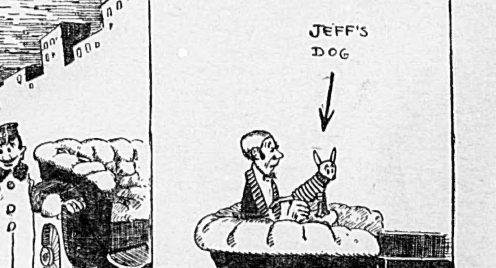

Philadelphia, April 15.—Two home runs by Capt. Magee turned the scales of victory to Philadelphia over New York in the opening game of the National league season here yesterday. The final score was 10 to 1. In four trips to the plate Magee secured a base on balls, two home runs, a single, his hits driving in six runs.

NEW YORK BEATS ATHLETICS 8-2

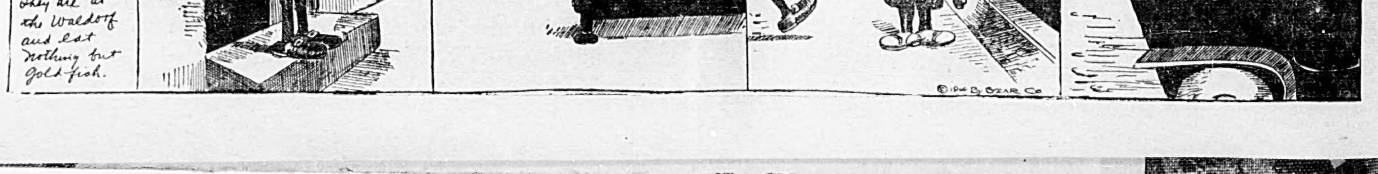

Frank Chance's Men Played Good Ball—Joe Bush Hit Hard.

New York, April 15.—New York's major league baseball season was started auspiciously for today, Frank Chance's men defeating the Athletics 8 to 2. It was the first time in years that the local American leaguers had won their opening game.

The game was New York's all the way, Bush being driven from the mound after two stormy innings, in which he yielded five hits 4 runs and 4 bases on balls. Boardman, a young left hander from Brown University, who replaced Bush, also was hit hard.

QUEBEC HOCKEY CLUB MAKES DEAL

Exchange of Players Made Between Pro. Teams for Next Season.

Quebec, April 15.—The Quebec hockey club, through its manager, Mr. M. J. Quinn, has completed a deal with the management of the Ontario hockey club whereby Tommy Smith, its leading goal getter, will go to Tommy Murphy's outfit in exchange for Jackie McDonald, the local boy who figured on the championship team three seasons past. A cash consideration figured in the trade, with certain strings which will be to the advantage of the former Stanley cup holders.

The local club sent in their reserve list to the president of the N.H.A., as follows: Moran, Mummery, Hall, Prodgers, Crawford, Smith, Malone, Marks, Westwick, Carri Rooney and Savard. The McDonald-Smith deal was put through after the club's reserve list had been sent in, so that Smith is still the club's property as far as the league is concerned.

Crawford, Mummery and Malone are the three players that Quebec will exclude from the draft agreement with the Pacific coast hockey association.

Our National Game

The playing of lacrosse on Sunday by the Canadian teams in the games in United States territory will receive scant support.

Professional lacrosse at the coast seems to be in a bad way. Without Con. Jones in the game, the players cannot see where they are going to get their salaries, and many of them will go east to play with "Big Four" teams.

Alex ("Dad") Turnbull, the Olympic veteran of years ago, is busily engaged at Westminster preparing his string of amateurs in order to wrest the Mann cup from Vancouver.

J. M. Cameron, of the Athletic Lacrosse club of St. Catharines, is not in favor of granting permission to clubs to play Sunday games in the United States.

It is quite possible that lacrosse and Canadian league baseball will be played together on Saturdays at the Island at Toronto. The lacrosse schedule calls for nine home games, and if the Canadian leaguers do not succeed in getting grounds in the city a double header should provide a good Saturday afternoon's amusement.

The Montreal Nationals, with "Newsy" Lalonde starting out the season, expect to be able to land out in front. They will have all their old players in line, and if they show the form they displayed at the end of last season, should be right up with the leaders.

Quebec are sure after a franchise in the "Big Four." They will entertain a delegation of league magnates in Quebec on April 18, and try and convince them that it would be a good thing for all the clubs to give the Ancient City a franchise.

The Young Torontos are another of the Toronto teams who deserve a lot of credit. They are a fine bunch of young fellows who have stayed together for a number of years, and could always be depended upon to put up a good fight.

St. Catharine's Lacrosse club favors an amendment to the O.A.L.A. constitution which will allow Canadian clubs to play games with teams across the American border on Sunday.

Coast Players for Toronto.

Vancouver, April 15.—Cliff Spring, the sensational home fielder of the New Westminster world's champions, was in the city today and announced that he had forwarded the signed contracts of himself and Len Turnbull, the clever outside home of the Minto Cup holders, to the Toronto club, where they will play this coming summer. Turnbull will leave next Sunday and Spring and his wife will go east later in the month. Tom Rennie is being sought by the Toronto club, and he may also go east this season.

WHAT EVERY MOTORIST WANTS.

Power—More Power—and STILL MORE POWER is the perpetual demand of every motorist. The man who first drove a 15-horsepower Runabout graduated to the 20-horsepower touring car. Soon that palled. Then came the "30," followed by the "40"—and today even the "60" fails to gratify some.

With the demand for increased power came the division in auto designs. One type stood for increased power through increased engine-mass—bigger bore, longer stroke, more engine and more dead weight. The other type (by far the minority, because the more expensive) determined to increase power through increasing the efficiency, rather than the size, of the motor.

One of the finest exponents of the desirable latter class is the RUSSELL-KNIGHT sleeve-valve motor.

In the recent famous test at West Toronto one of these 28-horsepower motors, selected at random from stock, not only established a wonderful endurance record, but set an amazing mark for power. At the conclusion of 13 days and nights of continuous running it developed for a period of 12 hours over 58 horsepower, or more than double its normal rating. To cap the climax, it was speeded up for a five-minute period to 2,000 revolutions per minute, showing an astounding power output of 65 horsepower. Unquestionably the RUSSELL-KNIGHT "28" motor is the most efficient and economical automobile power-plant in existence.

THE MANN CUP—EMBLEMATIC OF WORLD'S AMATEUR CHAMPIONSHIP.

Joe Lally, the greatest lacrosse booster in Canada is in Edmonton today and is a guest at the Alberta Mayor's luncheon at the Empire Auditorium at 1.30 today. This cup represents the amateur lacrosse championship of Canada and is now held by Vancouver, who will defend it against the Brampton, Ont., team soon.

JOE LALLY IS IN CITY TODAY

Is Here to Organize Lacrosse Teams Among School Boys.

Joe Lally, foremost booster and enthusiast of Canada's national game, lacrosse, arrived in the city this morning from Calgary. The purpose of Mr. Lally's visit to Edmonton is to encourage amateur lacrosse among the school boys.

Mr. Lally is making a complete tour of the Canadian west on his mission and is meeting with great success in every town and city. Canada's national game is in for a banner season. It has never been a leading game in the west, but this summer it is going to jump to the front and boom once more, and there is no better game played than lacrosse.

It is Mr. Lally's intention to meet with George R. Jackson, supervisor of playgrounds, William A. Tait, boy's secretary of the Y. M. C. A., J. W. Ward, general secretary of the Y. M. C. A., the physical directors of the "Y" and the various schools, and the sport editors of the city, and make all preparations and arrangements for the introduction of Juvenile, Junior and senior lacrosse teams.

During the past winter there has been run a very successful school boys' hockey league and it is after this plan that Mr. Lally proposes to work the lacrosse leagues. In Calgary he organized no less than 30 teams among the boys and he expects to do even better in Edmonton.

Joseph Driscoll, Joe Clarke, Anse Young and many other prominent men interested in the national game will meet with Mr. Lally and help the game along. Mr. Lally will be in the city all day Thursday and will then leave for Saskatoon on his lacrosse errand. Full particulars of the progress of the boy's lacrosse teams and leagus in Edmonton will be published each day on the Capital's sport page.

Martial Law at Race Track.

Tulsa, Okla., April 15—Adjutant General Canton early last night ordered companies of the state militia at Chandler and Pawnee to report immediately to Tulsa to declare the race track here under martial law. The Tulsa company was ordered to assemble at the local armory.

Governor Leecruce last night declared he would take this action if betting were not stopped at the Tulsa race track.

What's Happened to Levinsky

Butte, Mont., April 15.—Jack Dillon of Indianapolis was awarded the decision here last night over "Battling" Levinsky of New York, at the end of their 12 round bout.

Michael Haitsch, Cleveland aphasia victim, has completely forgotten German, his native language.

Dr. Morse's Indian Root Pills

exactly meet the need which so often arises in every family for a medicine to open up and regulate the bowels. Not only are they effective in all cases of Constipation, but they help greatly in breaking up a Cold or La Grippe by cleaning out the system and purifying the blood. In the same way they relieve or cure Biliousness, Indigestion, Sick Headaches, Rheumatism and other common ailments. In the fullest sense of the words Dr. Morse's Indian Root Pills are

A Household Remedy

SPORTOGRAPHY

Old King Cole, That Merry Old Soul, Is 28 Today

In the list of today's sporting anniversaries there are several that stick out with the peerless pre-eminence of a sore thumb. For instance, this is the twenty-eighth birthday of Old King Cole, that berry old soul, who aforetime pushed the pellet over the plate for Frank Chance's old Cubs, and who, after a brief return to the minors, now finds himself back on the main-traveled baseball road as the stellar-twirler of Frank Chance's New York Americans. Also, this is the thirty-ninth birthday of one James J. Jeffries, the Los Angeles thirst quencher, who was at one period well and favorably known as a practitioner of the manly art of self defence. G. Napoleon Rucker, the celebrated Brooklyn southpaw, dates his major league history from the fifteenth of April in the annum 1907, when he went out on the mound for the Dodgers for the first time and, under the influence of stage fright, lost his game to Boston by a score of 3 to 2. Continuing our researches into ancient history, we find that it was 11 years ago today that the distinguished evangellist, Billy Sunday, signed a contract with the Gospel league, or, in other words, was ordained in the Presbyterian ministry, the Chicago presbytery performing the ceremony of initiation. Doubtless many of the good ministers looked upon Sunday as a bush league recruit, but he soon proved that he was a big leaguer in theology as well as baseball.

Returning to old King Cole, his real first names are Leonard Leslie, and he was born in Toledo, Ia., April 15, 1886. In the salubrious climate of the middle West he grew to an altitude of six feet one and a quarter inches. He began playing semi-"pro" ball at the age of 20, and broke into organized ball in 1909 with Bay City, Mich. He joined the Cubs in 1910, and during his first year in the National league won 20 out of 24 games pitched. Last year Cole was sent back to the minors and pitched such remarkable ball for Columbus in the American association that several big league magnates went after him, Cincinnati offering $10,000, it is said. Cole was delighted when he was drafted by the Highlanders at the instigation of his old boss, Frank Chance. The tall blonde twirler amused himself early this year by jumping to the Federals and jumping right back again—a form of exercise excellent for the development of the pocketbook muscles.

St. Louis 2, Pittsburg 1

St. Louis, April 15.—Players traded to the St. Louis team during the winter by Pittsburg played a prominent part in the defeat of the latter team here yesterday by a score of 2 to 1, in the opening of the season. It was "Chief" Wilson's stinging single in the ninth after two men were out that sent Art Butler across the plate with the winning run for the locals. In the first inning Jack Miller, though with Pittsburg last, doubled, scoring Butler at second.

Excellent fielding by the locals held the visitor's to one run.

Brooklyn Beat Pittsburg

Pittsburg, April 15.—Ideal weather, a parade and many spectators marked the opening of the Federal league season here yesterday. Brooklyn defeated Pittsburg in ten innings, the game being a pitchers battle between Seaton and Knetzer. Final score, Brooklyn 1, Pittsburg 0.

Columbian Cricket Club.

A meeting of the above club will be held on Thursday the 16th at the City Advertising Agency, rear of 620 Second street, at eight o'clock. All members are requested to be present without fail, as important business and the election of officers will take place.

And It Will Stay Good —That Light Lozier Four

Can You be certain the same will be true of that cheap six you are being importuned to buy?

THIS SEASON more than ever before, it behooves the buyer of an automobile "around $2000" to consider well the enduring qualities of the various cars that are offered him.

FOR THE TYPE OF CAR that is cheap only in first cost and good only while new, has now invaded this field—this price-class—under the guise of "sixes."

THERE'S A CLASS OF MAKERS who, seeking quick fortune rather than lasting fame, have always been found following—at a distance—in the wake of makers of the best class of cars, and by making cheap imitations of the real—featuring as "talking points" the more prominent points of the high priced cars—have thrived for a time—and continued to thrive from season to season only by changing design every year.

JUST NOW THESE ARE FEATURING "sixes", "lightness" and "cheapness"—three factors any one of which in itself is desirable—but the combination of which is incompatible. Lightness and cheapness may go together; Lightness and Six will agree fairly well; but sixes and cheapness—that combination can only result in disappointment and grief.

WE WOULD NOT DEEM IT NECESSARY to notice such a condition publicly but for the fact that those makers are spending, in the aggregate, money up into the millions in efforts to force that type of car on buyers—cars that, if Lozier engineering and Lozier experience tell anything, will not, can not, stay good.

AND CAN ANYTHING BE more disappointing, disheartening, than to pay a goodly sum for a motor car, feeling you are entitled to one that will be good in performance and appearance not only while new, but for some years at least—and then find after only a few months and a few thousand miles that it's finish is shoddy and its mechanism only an imitation.

NOW, WHEN A MAN PAYS $500 for a car he doesn't mind if it develops a few squeaks and creaks and rattles in a short time. He has gotten what he paid for—it does take him there and back and continues to do so.

IT PERFORMS THE SERVICE he expected it to perform; and so what difference if the fenders do flap a bit; or if, fatigued with flapping one drops off now and then? He can buy another for a couple of dollars—they keep them in most all the stores nowadays.

HE GOT HIS MONEY'S WORTH, and, to use the vernacular, he has no kick coming. As the Hebrew clothier said to the irate customer when he came back exclaiming "there are moths in that overcoat you sold me!" "Vell—Vat did you eggspect for ten dollars—humming birds?"

SIMILARLY, the man who buys a car just to take him somewhere and who pays accordingly, does not feel hurt nor need he be surprised if, a few weeks later, he finds it has hatched out a whole nest full of yellow-hammers, a couple of wood-peckers and a guinea hen.

BUT LET THAT SAME MAN PAY $1800 or thereabouts for a car, fondly believing he is getting a real automobile and an up-to-date one—for isn't it a six just like the high priced ones?—and have it, after a brief period of service develop innumerable and indescribable noises—then it ceases to be humorous, and in the case of many families, takes on an aspect very like tragedy.

THAT CAR ON WHICH HE and his family looked with such pride on the day it became theirs, has become a bedraggled, out at elbows affair and noisy by just so much as there are more cylinders and less weight.

AND TO KNOW that for a few dollars more he could have purchased a car that would have stayed good so many years longer.

NOW TO MAKE A CHEAP SIX—and we term it a cheap six if it sells for less than $3,000—it is necessary to skimp not only body and finish, but vital parts such as axles, transmissions and even—yes, the motor.

HERE'S AN EXAMPLE. We are informed that a certain well known maker of a cheap six went to his motor maker—you know of course that practically all the "cheap" sixes are merely assembled cars—and said to him: "Here's what we can afford to pay for our 1915 Six motor—make us as good a one as you can at that price."

DO YOU WANT THAT CAR?

LOZIER CAN'T AFFORD—and there's where a maker's reputation is the greatest protection to the buyer—Lozier can't afford to stake its reputation on a car so light that it has overrun the hazardous point. No makers can afford to do these things save those who turn out a radically new model each year.

LOZIER CONTENDS—and our position is supported by the policies of those other makers whose position in this industry is secure—that it is impossible to make a six or a seven-passenger car, make it as extremely light as some are doing this season, and have it stay good.

IT CAN BE DONE ONLY by taking tremendous risks—or rather making the buyer take them.

LOZIER CONTENDS FURTHER that it is impossible to make such a car, make it first class throughout and finish it so the finish will stay good, put a Six motor in it—a motor worth the name—and sell it for any where around $2000. It can't be done.

WE WOULDN'T DARE attempt such a feat—too much at stake. The buyer's interests and the Lozier reputation.

BUT, YOU SAY, HOW CAN ONE determine which car of all those featured so glowingly in the ads, can be depended upon to stay good? That's easy. Just apply the old rule. If you don't know about diamonds, go to Tiffany's. Will cost no more and you can be certain your gem was selected by an expert—one who knew and who could not afford to cheat you.

LOOK AT A LOZIER—one, two, five, yes, ten years old. You'll notice that the years of service have simply served to mellow that car. Not only is the motor still just as silent, just as sweet, just as powerful, but the body is still stylish. And like good old furniture it has taken on a certain richness with age.

BY THE WAY, have you ever noticed how easy it is to distinguish a Lozier car among a lot of nondescripts anywhere? IT has about it an indefinable something that makes it stand out above all others.

LIKE SOME DYNAMIC INDIVIDUALS, who once met leave an indelible impress on the mind while thousands of others come, pass and go and are forgotten, so a Lozier car seems to have a personality, an individuality that distinguishes it from all others.

AS YOU SEE IT COMING up over the brow of a hill or around a turn you feel as if you were meeting a distinguished acquaintance—even tho you have never owned one, but like so many others have said "Some Day I'll Own A Lozier Too."

THIS NEW LOZIER FOUR is made just like all Loziers always have been made—conscientiously and intelligently, and with no concessions to popular clamor or the direction others are going at the moment.

THIS IS A FOUR BECAUSE our engineering knowledge said it must be a four—should be a four—If we were to make a car to fill the demands of thousands who asked for a Lozier, a seven passenger car, and yet set the limit they wanted to pay "around $2000."

AND THIS LOZIER FOUR IS LIGHT—just as light as sound engineering practice will permit. But in making it light our engineers stopped before they reached the danger line—even the doubtful line.

OF COURSE IF YOU WANT A SIX—feel you can afford the difference in upkeep cost—by all means you should buy one.

BUT DON'T BUY A CHEAP SIX—buy a real six, or buy a real four.

AND WHEN YOU'VE INSPECTED this new Lozier four critically, ridden in it—and we defy you to tell after twelve miles per hour whether you are riding in a six or a four—when you've asked all the Lozier owners you know about Lozier cars generally, you'll decide you don't want a cheap six, but a first class four—A Lozier Four that will stay good.

Southwest quarter of Section 12, Township 58, Range 1, West of the 5th Meridian, which I shall expose for sale on Wednesday the 13th day of May, 1914, at Sheriff's Office, Court House, McDougall avenue, city, at the hour of 4 o'clock p.m.

Sheriff's Office, February 12th, 1914.

W. S. ROBERTSON, Sheriff,
Edmonton, Alta.

Sheriff's Sale

Province of Alberta to wit:

By virtue of a Writ of Execution issued out of the Supreme Court of Alberta, Edmonton Judicial District, at the suit of McSporan & Company, and others, Plaintiff, and Elizabeth Moore, Defendant, and to me directed against the lands of Elizabeth Moore, I have seized and taken into Execution the following lands, namely: Lot Six (6) in Block Four (4), as shown on Plan 8271-A.F. of a subdivision of Lot Four five shown on Plan D.F. of Fairview, Subdivision of the City of Edmonton, in the Province of Alberta, both said Plans being of record in the Land Titles Office for the North Alberta Land Registration District —which I shall expose for sale on Friday, the 5th day of June, 1914, at Court House, McDougall Ave., Edmonton, Alta., at the hour of 2.30 p.m.

W. S. ROBERTSON, Sheriff,
Edmonton, Alta.
E. T. PATRICK, Bailiff.
Sheriff's Office,
March 2nd, 1914.

GET IT AT THE BAY.

News of the Markets

Winnipeg Wheat.

Winnipeg, April 15.—The feature on yesterday's market was the heavy break in the price of oats, caused by the extremely slow export demand for the past two months, heavy stocks, heavier receipts and May liquidation.

Wheat was also on the downward trend and with May prices under 90c there was some active buying for export. At noon there wer over 500,000 bushels worked.

American markets were comparatively steady. A heavy falling off in receipts at Minneapolis and a good cash demand there sustained prices.

Liverpool cables were stronger than anticipated in face of the weak markets on this side since Easter recess.

Crop conditions continue excellent in winter wheat belt and seeding is being carried on in the northwest states under favorable auspices. Nearing the close there was a general rally on all grains, wheat closing over Monday's prices.

Wheat opened unchanged to 1-8 higher and closed 1-4 to 3-8 higher.

Minneapolis opened 1-8 lower to 1-4 higher and closed 1-8 to 7-8 ct. advance.

Chicago opened unchanged to 1-4 higher and closed 1-8 to 7-8 ct. advance.

Liverpool closed 1-4 to 1-2 lower, compared with Thursday.

Paris 1-4 higher, Berlin 7-8 lower, Budapest 2 ct. lower, Antwerp unchanged.

Cash wheat closed 3-8 advance on contract grades. Cash oats closed 3-8 to 1-2 lower; cash barley closed 1-4 to 1-2 lower; cash flax closed unchanged to 1-4 lower.

Inspections Monday numbered 893 cars, against 348 last year, and in sight were 315.

Chicago Wheat.

Chicago, April 15.—Tightfiess became acute yesterday in the May delivery of wheat. Offerings were so scarce that shorts who wished to cover had to bid prices up with such vigor as to affect the entire market. The result was a strong close at 3-8 to 7-8 net advance.

Nervousness on the part of the wheat shorts had an early stimulus, a radical falling off in domestic receipts northwest, bearish feeling which at the outset was prevalent owing to lower cables and to favorable European crop reports gave way speedily, and the upward tendency thereafter had no serious check. In the oversold condition of the market prices were sensitive to talk about hessian fly in northwestern Missouri, Kansas and Southern Illinois. Additional force to bullish sentiment came from a big decrease in the world's available stock. On the other hand there was a good deal of surprise over suddenly enlarged arrivals at Winnipeg. The number of cars reported as having reached the Canadian terminal for the last 24 hours was 600, a huge total for this time of the year. Active purchases on the part of bull leaders proved successful finally in overcoming the effect of heavy liquidation sales from miscellaneous holders. It was said that Argentine dealers were attempting to combine to bring about higher prices. There were also advices of rain in Argentine unfavorable for late harvesting and for the movement of the crop.

Oats severed company with corn owing to ideal weather and because of the liberal shipment from Minneapolis to Chicago.

Chicago Cattle.

Chicago, April 15.—Cattle receipts 2,500, market steady. Beeves 700 to 900; Texas steers 725 to 830; stockers and feeders 500 to 850; cows and heifers 375 to 880; calves 450 to 490.

Hog receipts 11,000, market lower. Light 870 to 890; mixed 865 to 890; heavy 840 to 887; rough 840 to 865; pigs 750 to 860; bul 880 to 890; sheep receipts 2,000, market lower; native 550 to 700; yearlings 590 to 790; lambs, native 620 to 825.

Toronto Stocks

Toronto, April 15.—Steel stocks in the Canadian market shared with those in New York the distinction of making a dip below the other stocks on the list. There was real liquidation of iron common here, which broke the price again under 50, the support which was tendered holding the price at 30 3-8 at close. Steel of Canada also sold off in spite of its favorable statement, closing at 16 for the common and 79 for the preferred. The Canadian market as a rule was dull and without public interest. C. P. R. was more than ordinarily active at 199 1-34.

TENDERS FOR THE General Contract for the Construction of a Telephone Building, Medicine Hat

Sealed Tenders addressed to the undersigned, and endorsed "Tenders for the General Contract for the Construction of the Telephone Building at Medicine Hat, Alta.," will be received up to 12 o'clock noon, April 27th, 1914.

Full particulars may be had at the office of the Provincial Architect, Parliament Buildings, Edmonton, or at the offices of the Department of Public Works, Calgary, and Lethbridge, and at the office of the Local Manager, Government Telephones, Medicine Hat.

An accepted cheque made payable to the Minister of Public Works, Edmonton, for the sum of ten ($10.00) dollars, will be required from each contractor taking out plans and specifications on this work as a guarnitee that they will put in a bona fide tender and return plans and specifications.

Each tender must be accompanied by an accepted cheque payable at par to the Minister of Public Works to the amount of five (5 p.c.) per cent. of the tender.

Should the contract be awarded the successful bidder shall be required to execute a guarantee bond on an approved Surety Company to the amount of twenty (20 p.c.) per cent. of his tender as a guarantee for the faithful fulfilment of his contract.

The cheques of the unsuccessful bidders will be returned within six days after the contract is awarded.

The right is reserved to reject any or all bids or to waive any defects.

JOHN STOCKS,
Deputy Minister of Public Works.
Dated at Edmonton this 9th day of April, 1914.

Canadian Pacific Railway,
145 Jasper Avenue East, Edmonton, Alta.
S. J. THORBURN,
District Representative.

RAILWAYS EXTEND TIME FOR RECEIVING PERISHABLE GOODS

The local freight association met with a committee of the board of trade and a number of Edmonton shippers yesterday afternoon in the board of trade rooms, situated in the Civic block.

The meeting was called in order that an agreement might be arrived at between the railway companies and the shippers whereby the railways would extend the time for receiving perishable goods to be shipped in refrigerator cars at the freight sheds. Heretofore it has been customary for the railway companies to receive perishable merchandise up to three o'clock in the afternoons, but it was pointed out that this did not give the shippers enough time to deliver their goods to the sheds and it was agreed to extend the time of receiving perishable goods until four o'clock in the afternoon.

There was a complaint brought forth by the railway companies that the shippers were not properly marking their shipments of merchandise. It was pointed out that too much stress could not be laid upon the properly marking of the goods, and it was explained that invariably the goods will get into the wrong cars when indistinctly marked, the train hands and shedmen find it impossible very often to distinguish the place of shipment, thereby creating a great annoyance and very often loss of money to the consignee, consignor and the railway companies.

Receive Honorary Degrees.

Toronto, April 15.—At a recent meeting of the senate of Victoria university it was decided to confer the honorary degree of D.D. on the Rev. Professor James Elliott, of Wesley college, Winnipeg, Man., and on the Rev. James Edward Carruthers, Lindefeld, New South Wales.

Stead Bust Unveiled.

The Hague, Netherlands, April 15.—Solemn ceremonies marked the the unveiling today in the palace of peace of the bust of the late William T. Stead, the English writer, who was a victim of the Titanic disaster two years ago.

There was a distinguished audience of delegates representing many countries.

Norway's Daughters Organize.

Under the direction of Mrs. John Faltinson an order of the Daughters of Norway will be organized next Friday evening at the Blue Moon tea rooms, Rice street. All daughters and ancestors from the land of the midnight sun are requested to be present.

Awarded $250 Damages.

Judgment for $250, with no deductions for costs, was given by Mr. Justice Scott yesterday in the supreme court in favor of Barbara Miller Interman, suing on behalf of her son, an infant, in respect to injuries sustained by him through being run over by an auto driven by Stanislaus La Rue.

Colonel Hughes in Charge.

Lindsay, Ont., April 15.—The 45th Regiment will this summer go into camp at Petawawa instead of Bamfield. It is understood that Hon. Colonel Hughes will personally take charge of this year's camp there.

Many New Townships.

Ottawa, April 15.—Upwards of 80 surveying parties have been sent out this season by the department of the interior for the purpose of laying out new townships in the northern portion of the prairie provinces. They will go as far north as Fort McMurray.

Make Demand for Work.

Hamilton, Ont., April 15.—That conditions have not improved much here with the advent of spring was evident yesterday morning, when 500 unemployed men stormed the city hall and asked for work.

Killed by Her Brother.

Regina, April 15.—Mabel Ferris, a little girl, was accidentally shot dead by her brother as North Regina yesterday. The girl ran toward the boy who was holding a rifle and her head struck the barrel.

Mixed Farming Favored.

Regina, April 15.—Saskatchewan farmers are purchasing a great deal of alfalfa and grass seed from local seed companies who state that the movement toward mixed farming is surprisingly rapid.

Steamship Arrival.

The Canadian Northern steamer Royal Edward will arrive in St. John early on Thursday morning. Passengers due Edmonton the following Tuesday.

Give Scotch Entertainments.

Gavin Spence, Miss Nannie Strachan, Miss Margaret G. Strachan and C. McKerral left the city last night for Edson and other points west, to give a series of Scottish entertainments.

Millions for Improvements.

St. Louis, Mo., April 15.—The Mississippi river commission which met here yesterday agreed to recommend that congress appropriate $12,000,000 for the improvement of the river next year.

Four Killed by Auto.

Georgetown, Texas, April 15.—Four men wer killed and two seriously injured her today, when a Missouri, Kansas and Texas passenger train crashed into an automobile on which they were driving.

INTERESTING TRIAL RECALLED BY DEATH OF OLD HALF BREED

One of the most interesting figures among the native inhabitants of Alberta has just passed away in the person of Daniel Belcourt, a half-breed who was connected with most of the Belcourt and Paul families in the province. Belcourt was born at St. Albert in 1856 and has just died in Calgary.

Belcourt was a principal figure in the trial of Henri Verri, who is now serving a life sentence in the Edmonton penetentiary in connection with the death of Alfred Glen. The case was a curious tangle. The accused was the son-in-law of Daniel Belcourt, having married his daughter Adelaide and Glen was Belmont's nephew. The old man was thus placed in an awkward position in giving evidence.

Though a peace-loving man himself Belcourt had been mixed up with a good many scraps between his fellow tribesmen in the last 20 years.

Moose Elect Officers.

The regular meeting of Loyal Order of Moose was held last night at which the officers for the insuing year were installed, namely: Past dictator, P. P. Woodward; dictator, W. H. Jacklin, vice-dictator, E. T. Bennett; prelate, O. P. Weatherill; secretary, H. Baker; treasurer, P. McGregor; sergeant at arms, H. G. Brenton; inner guard, R. E. Nalty; outer guard, J. W. Miller; trustees, G. P. Weatherill, R. H. Kidston, D. McDougal. Next Tuesday a large class will be put through the initiation. All old members are requested to be there to welcome their new brothers.

Meets No Opposition.

Santo Domingo, Dominican Republic, April 15.—Provisional President, Jose Bordas Valdez, at the head of a large force of Dominican troops today completed a march through Mosa Santiago, and Montecristi, without meeting any opposition from the rebels. He was received enthusiastically along his route. Dispatches from all parts of the republic indicate that there has been no disturbance of consequence.

Jack Johnson to Return.

Paris, April 15.—Jack Johnson, the negro pugilist, will return to Chicago for the re-trial of the charges against him under the Mann act. He was out of town today but has authorized his Paris representative, H. Wolf, to say that after his fight with Frank Moran he would sail for America and place himself at the disposal of the court.

Want Exhibit at Frisco.

Vancouver, April 15.—Last night at the board of trade a strong resolution was passed calling on the imperial government to make provision for an all-British exhibit at the Panama exposition. It was feit by the various speakers that Great Britain should be adequately represented at that affair.

Murder Mystery in Chicago.

Chicago, April 15.—The police today investigated the mysterious murder last night of Louis Malone, said to be a well-to-do grocer who was shot by three men while he was going home.

The police believe Malone was murdered by the agents of some secret society.

Remanded to Juvenile Court

Ernest Mitchell the 18 year old youth who stole the automobile from Joseph Poquette last Sunday evening has been remanded to the juvenile court by the magistrate.

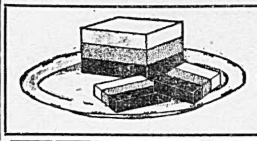

Carden Named for Brazil.

London, April 15.—The appointment of Sir Lionel Carden as British minister to Brazil was officially announced today. It is understook that Sir Lionel will proceed direct to Rio de Janeiro from Mexico City, to which place he is now on his way.

To Arrange Wage Scale.

Columbus, April 15.—Coal operators and union miners of the state will meet here in joint conference in an attempt to arrange a wage scale next Tuesday.

THEATER EMPLOYEE LOSES HIS LIFE IN FIRE AT HIGH RIVER

High River, Alta., April 15.—George Wilson, an employee of the local theater, lost his life yesterday in a fire which consumed the garage owned by P. McKeague, above which he was sleeping. In addition to the premises and nine or ten cars, a Chinese laundry adjoining was also reduced to ashes.

It appears that the unfortunate Wilson was accustomed to sleep until well on in the day, as he worked late hours, and until his brother arrived on the scene, no person remembered that he was in bed. The fire started at ten a.m. this morning.

There is no insurance on the buildings and the loss has not yet been ascertained.

Singing Festival a Success

The "Cymanpa Game," or Welsh singing festival held on Good Friday in the First Baptist church proved the success anticipated. The singing both in the afternoon and evening was particularly good, and was evidently much appreciated by those present.

W. Price occupied the chair during the afternoon and Mr. Duggan had some interesting things to say regarding the importance of such meetings.

The evening meeting was noted for some very good solo singing on the part of Mrs. John Davies who delighted all in with her rendering of "Abide With Me."

David Jones throughout, made a most successful conductor and he was ably assisted by Major Harry Watts at the organ.

Future meetings of this nature should be of much interest to those liking good congregational singing.

Monster Wolf Slain.

Brooks, Alta., April 15.—A monster wolf which has been a great marauder in the cattle country north of the town has been shot near Howie post office. Besides the government bounty the hunter will get a reward from the cattlemen who have suffered.

There are no expensive preparations; no time lost; use only your leisure hours; sit in your easy chair and read

Panama and the Canal in Picture and Prose

This book first takes you in through the front door of Panama—through the islands along the way, describing the natives in picture and prose; thence you are taken to the isthmus and are shown the wonders of that unknown country—the people, their strange costumes, their religions and politics, their peculiar characteristics; how they live—how certain natives eat lizards and hugely enjoy them—how they fish and hunt; their sports and pastimes; marketing bananas, shooting alligators, burning charcoal; ALL there is to know, all about these queer people, and more than has ever been told of the great waterways—from the whys and wherefores of its inception to the ins and outs of its construction — and on through to its completion—in all a beautiful human interest story that will charm the reader to the very last page.

An illustration cannot portray the beauties of this big $4 book, bound in tropical red vellum cloth. It measures 9 x 12 inches in size.
The Picture of the Hand Shows the Comparative Size of the Book.

IT IS A RARE TREAT FOR EVERYBODY

The CAPITAL

presents this book to its readers on the popular plan explained in the Panama Certificate printed daily in these columns.

Cut Out the Panama Certificate

and present at this office with the expense amount of $1.20 for the $4 volume, or 50 cents for the $2 volume (which covers the items of the cost of packing, express from the factory, checking, clerk hire, and other necessary EXPENSE items), and receive your choice of these books:

The Large Volume
is printed from new type, large and clear, splendidly bound, with inlaid panel showing the famous Culebra Cut in natural colors, and filled with magnificent illustrations, many of which are from water color studies in artistic colorings.

The Small Volume
contains practically the same reading matter; is bound in blue vellum cloth, but contains only 100 photographic reproductions, and the color plates are omitted. Willis J. Aboot, America's most versatile writer, is the author of both books.

MAIL ORDERS FILLED AS EXPLAINED IN THE CERTIFICATE PRINTED ON PAGE 2 OF THIS ISSUE

JOHNSTONE WALKER'S ANNUAL ROUND-UP SHOE SALE

For Men, Women and Children

Begins Thursday, April 16th, and
Continues Until Saturday, April 25th

See Window Displays tonight—the whole store front is given over to groupings of Footwear included in the round-up.

Please bear in mind no telephone orders will be accepted for any items included in this sale and shop early.

A ROUSING NINE DAYS' SALE of Broken Sizes, Odd Lines and Overstocked Styles in Dependable Footwear That Will Corral Record-Breaking Crowds

IT'S A SALE of THOROUGHLY DEPENDABLE FOOTWEAR comprising overstocked styles, broken size ranges and odd lines, which are bound to accummulate with months of tremendously heavy sales, such as are recorded in this department. And it's this systematic yearly round-up or clean-up that keeps these footwear stocks in such splendid shape to meet all demands and at the same time has enabled us to build up the largest footwear business west of Winnipeg.

EDMONTONIANS have learned to look forward to this annual money-saving sale which means so much in households where there are many pairs of feet to be provided for, from time to time. And the values offered this season compel buying, whether new shoes are wanted just at present or not. It's sound economy to take future footwear requirements into consideration when thoroughly dependable, stylish shoes are obtainable at such sweeping price-reductions.
